

Haliburton's Pirates' Bonanza

Your key to the treasure is enclosed in special section in this issue

Investigation results in re-scheduling

An evaluation of whether an OPP detachment might be established in Haliburton Village or whether the policing would be done from the Minden detachment has been completed by OPP Staff Superintendent James Joley, resulting in adjustments to the shift schedule at the Minden detachment, according to Staff Sergeant Jim Tree of the OPP Commissioner's office.

The sergeant pointed out, "we don't entirely agree that we are not providing good local service", but it was "found that by juggling shifts and patrol schedules we could provide more people there at the times they are needed."

The "special investigation to determine if there were any changes in the policing requirements" of Haliburton County, as

Sgt. Tree described it, was sparked "because your people complained and suggested we establish a detachment" in Haliburton village.

"Perhaps it was constructive criticism and we made the best of it", Sgt. Tree concluded.

Jane Allen, executive assistant to the Deputy Minister of the Solicitor General's office noted that the investigation followed

upon the Jan. 24 meeting between John MacBeth, Solicitor General, John Eakins, MPP Victoria Haliburton and Murray Fearrey, reeve of Dysart et al. After that meeting, Miss Allen stated, "Mr. MacBeth asked the commissioner of the OPP to go into it. They did go up and see what could be done," she confirmed.

Sgt. Tree explained that the

OPP have an ongoing program whereby they check the needs of areas across the province and adjust the number on staff at any detachment to cope with the number of calls that they receive.

The recent investigation and rescheduling at the Minden detachment was not a part of that program, Sgt. Tree noted, but was the result of complaints.

As Miss Allen explained, "the one involved with the review" James Joley of the Commissioner's office, was recently transferred to another branch.

Sgt. Tree pointed out "we are bound by budgeting" and "to put more people in Minden or to establish a detachment in Haliburton would steal from other areas."

"We don't entirely agree that

we are not providing good local service," but it was "found that by juggling shifts and patrol schedules we could provide more people there at the times they are needed to fill the gaps."

Chief Superintendent V.C. Welsh, second in command of the field division of the OPP

"The voice of the Highlands" since 1882

20 cents

Livestock producers want vet for area

"With enthusiasm like this, it can't help but spread to someplace that will count" said Dr. Lloyd Coleman of the Veterinary Services Branch in response to a question on how close the Haliburton County Livestock Producers' Association's Veterinary Services Committee is to getting a vet to service Haliburton County.

The Veterinary Services Committee of the Haliburton County Livestock Producers' Association has begun to collect \$20 from members to get veterinary services into the county. Dr. Coleman told more than 60 persons interested in livestock

production, in the county, last Wednesday night, that as far as the Veterinary Services Branch is concerned, he was prepared to recommend the project. Dr. Coleman heads the Veterinary Assistance Program for the Provincial Ministry of Agriculture and Food.

He noted that their budget set last fall, provides for 17 areas designated under the veterinary assistance program, but does not provide for Haliburton County. "I can't assure you of any definite action before April 1, 1978" when the next budget would be approved, Coleman noted, "but as I said, with enthusiasm like

yours, you could get results from somewhere higher than us."

Carman Hamilton, district representative of the Agriculture and Food Ministry asked Dr. Coleman if the minister had the prerogative of changing the budget. Dr. Coleman replied, "Yes, and has," in the past.

In a question and answer session, Dr. Coleman explained that under the province's Veterinary Assistance Program, the government pays \$8,000 to a vet, in an area designated under the program. \$1,000 of that has to be paid to the Veterinary Services Branch by the local Veterinary Services Committee.

The vet is reimbursed by the provincial government for any mileage charges.

The livestock owner who calls in the vet pays a \$5 call fee and \$25 an hour and any drug costs. The vet's are subject to a fee schedule set by the program.

Vets practicing privately are presently charging .50 cents a mile one way, plus \$20 to \$25 an hour, Dr. Coleman pointed out.

A call, put in to a vet at Lindsay, the closest large animal doctor to Haliburton County, would cost \$25 in mileage alone, for a 50 mile trip, if he could come in time, it was pointed out at the meeting.

The Veterinary Services Committee of the Haliburton County Livestock Producers' Association, made up of the executive members of the Association and Mr. Hamilton discussed two possible ways of raising the \$1,000 needed to further the application for a vet when they met in February.

Mr. Hamilton said that they could ask for money from the municipalities in the county or could ask livestock producers in the county to contribute on an individual basis.

Asking for municipal funds, the Committee had decided, was not the best way at this time, Mr. Hamilton said Wednesday.

Livestock Association members are being asked to contribute \$20 towards the cost of the vet and as Mr. Hamilton said, "if you as livestock producers really want a vet...put your money where your mouth is."

The Association hopes to have at least 100 members sign up. There are 85 members at present. The Veterinary Services Committee decided that once 100 members had contributed \$20 each, bringing the trust fund for the vet to \$2,000, \$10 would be returned to each person who contributed \$20, keeping the fund to the required \$1,000.

Mr. Hamilton pointed out to those who questioned the program, "you are looking at a vet versus no vet. If you people want a vet closer than Lindsay, then you are going to have to do something about it."

It was noted that another year funds might come from fund-raising sources.

The Committee began its collection at the close of the meeting.

Captain Vince Conaghan applies the lock to Stedman's treasure chest in order to have it ready for Haliburton's first Pirate's Bonanza. Helping Vince are members of his crew, Debbie Nicholls, Gladys Roberts, Mary Lou Bird, Lillian Henry and Virginia Pockett. Participating merchants have offered a total of \$2,300 in cash and prizes in the contest that starts today. Merchants participating in the contest are Dominion Department Store, Black's Pro Hardware, Cauldron Pharmacy, Nancy's Flowers, Cliff Newbatt Furniture, Haliburton Marine, Haliburton Lumber, Curry Motors, Stedmans, Pinestone Inn, LaRue Motor Sales Ltd., William Findlay Ltd., Elstone Motor Sales, Emerson Lumber, Varty's Jewellery, Sportown, Coneybear Motors, Boice Motor Sales, Haliburton Red & White, Cordell Carpets, Haliburton Pharmacy, Highland Shoe & Tack, and The Echo. See the special section and get your key in this week's issue of The Echo.

Councillor suggests

Wood heat could save

A letter from Elgin Stouffer, a Stanhope Councillor, to Jayne Northgrave, councillor-co-ordinator for the Canada Manpower Outreach Project, in Haliburton, suggests that if a number of government agencies in the area used wood for heat, a great deal of money could be saved.

In the letter Mr. Stouffer states, "Following the revelation today that there are 594 plus 15 minus four persons listed with Canada Manpower as unemployed and looking for work in the Haliburton, Minden, Carleton Place, and that last year Canada had a deficit of two billion dollars in our export-import balance of trade in crude oil and natural gas, we feel that an emergency situation exists in our country."

Mr. Stouffer said that trees in local forests are being destroyed by girdling, in an effort to upgrade our forests. He adds that there are a number of large oil bills in the county.

Among these large oil bills was 200,000 gallons per year for the Board of Education, 100,000 gallons per year for the Leslie Frost Resource Centre, and 80,000

gallons per year each for the municipal buildings in Dysart, Anson, Hindon and Minden and Stanhope, for a total of 540,000 gallons per year.

Mr. Stouffer says, "If these five examples of oil heating could be heated with wood, 67 persons could be employed for \$4,000 each, for six winter months, instead of sending the money to O.P.E.C. This is just five examples out of many. If this could be duplicated in the many other similar areas to ours, the entire two billion dollar deficit could be corrected."

Mr. Stouffer points out that the cash flow in areas like ours would be improved to provide other services and related work. "Other institutions and homeowners becoming aware of the gravity of the situation, might be encouraged to burn wood," he says.

"We would like to emphasize at this point, that if a program such as this could be implemented by the Ministry of Natural Resources, that careful supervision of the cutting would be imperative to ensure that only low grade trees and tops, etc. would be utilized

for fuelwood," he adds in the letter.

\$25,000

\$20,000

\$15,000

\$10,000

\$5,000

Arena fund

A total of \$3,255 has been collected towards the goal of \$25,000 for the repairs and improvements to the Dysart Community Centre. The money along with a Wintario grant, is being used to make the changes at the arena.

Construction on sewers is set for summer

Construction will begin in June or July on the second phase of the sewer project for Haliburton Village.

In a letter from George Kerr, Minister of Environment, to Dysart et al Reeve, Murray Fearrey, it was stated that funds for the second phase of the sewage works program have been approved for 1977.

Along with funds approved for the second phase, enough money has been allocated for an extension to the Haliburton Red Cross Hospital and for a section along Highway 121 east of the village if approval can be obtained from the Ontario Municipal Board.

Reeve Fearrey told The Echo that he appreciates the work done by many individuals to get the project and pointed out that it will be a great help to the economy of the area this summer.

He said that he appreciates the work done by MPP John Eakins on arranging meetings and helping the municipality obtain the sewers.

Mr. Eakins told The Echo that he felt that the sewers were coming. "I am just delighted," he said, "We have had pretty good luck in both Minden and Haliburton this year." (Construction on Minden's sewers started last week.)

He pointed out that there have been many meetings with government officials on the projects.

Mr. Eakins, as the Liberal Party's tourism critic, said that he approached the problem from a tourism angle and was very successful with the approach.

Dysart Council has been talking about sewers for the past 10 years and according to Reeve Fearrey took a definite stand on sewers about six years ago.

In a story which appeared in the Feb. 2 issue of The Echo, the Reeve said the council took the stand that the village needed sewers despite the fact that Haliburton Village would have one of the highest per capita rates in Ontario.

The per capita rate in Haliburton Village worked out to \$174 per household.

The Ministry of the Environment gave the go ahead on the first phase of the project which was started in 1974 and completed in 1975.

Back in 1973 though, according to Reeve Fearrey, it became apparent that there was a definite need for a phase 2 to the project which would encompass more of the village, about 150 out of 250 homes.

Phase 2 was also to encompass the site proposed for Extensicare as well.

A petition conducted by the Ministry at that time showed 100 per cent in

favour of the second phase and at that time the Ministry said it would proceed with it immediately following the first phase of the project.

Reeve Fearrey said that at that time the municipal council expected the project to proceed on schedule and it wasn't until the spring of 1975 did the municipality find out that financing hadn't been arranged but it was indicated at that time by the ministry that there would be financing for 1976.

The reeve said that early in 1976 "because of the concern of local citizens" who had not replaced troubled tile beds, the council set up appointments with George Kerr, the Minister of the Environment.

Reeve Fearrey noted that there was also concern for the servicing of the high school and hospital.

From the meeting with Kerr, the council learned that financing had not been included for 1976 but it was indicated at that time that if any money became available from projects that didn't get off the ground that year, it would be applied to the Haliburton project.

Reeve Fearrey said that the minister admitted at that time that there was a need for the second phase of the project.

The reeve also pointed out that the money never came available during the year.

He noted that the council spent a great deal of time during that year getting in touch with various civil servants in the Ministry in regards to the status of the project.

In December of last year council learned that the project may not be included in 1977 funding.

"Council found that hard to take," Reeve Fearrey said, especially since the Ministry had already invested \$2 million in a sewage disposal system.

He said that because the system wasn't running at its capacity, it was inefficient without the second phase of the project.

Reeve Fearrey pointed out that since the initial visit to Kerr of other new projects started in the Province.

In January of this year, Dysart Council again went to see Ministry officials and at that time were told that an attempt would be made to find the necessary funding for the troubled areas, such as the hospital and high school.

Roy Brohm has been part of municipal politics in Dysart since 1950. During that time he has seen many changes in Haliburton County, the municipality of Dysart et al and Haliburton Village. For more details on Roy Brohm's career in politics see page 9 of this week's Echo.

Maple syrup will flow in Wilberforce for arena fund

The first Wilberforce Maple Syrup Festival will be held April 9 in the village.

Included with the festival will be a demonstration on the production of maple syrup with a sugar shack in the park beside the Watson Memorial Centre, with people available to explain the maple syrup operation.

There will be pancakes and sausages served from 9 a.m. to 3 p.m. in the centre and maple syrup will be for sale along with maple sugar candy.

Organizers hope to arrange a sugar bush tour, weather permitting.

To add to the festivities a flea market will be held and the tables are going fast.

Anyone wishing a table to sell handcrafts, bake goods or white elephant articles should go to the municipal office.

A dance will be held at the centre the evening of the festival, sponsored by the Wilberforce Curling Club.

Proceeds from the day long event will be used to help build a new arena for Monmouth Township.

Minden is still looking for site for senior home

Anson, Hindon and Minden council last Wednesday learned that Mrs. Pat White of Minden has turned down a bid made to purchase a parcel of her land lying between the highway 35 bypass and Prince Street to be used for senior citizens' apartments.

Reeve Reg Booth noted that council has it from the Ministry that Mrs. White turned down the offer for the land that the Ministry was considering for the development of senior citizens' housing.

A Ministry representative, Norman Reinhart, of the Community Services Branch, attended the last meeting of council to discuss the matter.

Mr. Booth pointed out that negotiations are continuing and that the Ministry is now looking at two other sites for the development.

Monmouth News by Pearl Foster

Well the skate-a-thon is over in Wilberforce, and stiff aching muscles have been soothed, now comes the hard part - collecting and turning in the money raised. Remember if you pledged money, see that the skater gets that money as soon as possible. Skaters remember to turn your money in to Bev Agnew at Wilberforce. The sooner the money is all in the sooner we'll know how well we did.

By the way Murray A. your many fans want to know how well you did in the skate-a-thon?

Hats off to Jean Thomas, Bev Agnew and Donna Murdock of the Wilberforce Skating club for a job well done in the skate-a-thon.

The skating club is holding a raffle for an afghan to help raise money. Tickets are available from the aforementioned ladies and from locations in Wilberforce, Tory Hill and Harcourt.

Recreation committee members are gearing up for April 9th, the pancake and sausage breakfast starts at 9 a.m. - they tell me \$2.50 will get you all you can eat - some moms will find this an inexpensive breakfast for those large teen-age appetites. The Maple syrup demonstration will run from 9 a.m. to about 3 p.m.

The Flea Market will start on April 9, about the same time as the breakfast; at last count there will be various organizations with bake goods tables, handicrafts, white elephants, paperback books and coin collections.

In the evening of the 9th the Wilberforce Curling Club is sponsored a dance, admission will be \$6 a couple with the Mystics providing the music.

With the end of the curling season coming on the 2nd of April a dance is probably in the works, but the club executive thought it would be a good opportunity to show its community involvement, and so decided to sponsor a dance with the proceeds to the Arena Fund.

The Wilberforce Minor Hockey Associations is proposing a \$1,000 Stanley Cup draw - the \$1,000 will be awarded on the time of the last goal scored in the last game and \$300 will go for the first goal scored in the last game, the tickets will be \$1 each.

The Wednesday night euchre enjoyed a good night as the High Ladies prize went to Lettie Mitchell, High Men's prize goes to Hubert Dunford, Lone Hands went to Blair Reil. Low Score went to Murray McColl, Lettie Mitchell also won the travel prize. All I.D.'s friends and fans will note that she did not win the Boobie Prize this week.

On the 19th of March the Wilberforce Legion (624) held a euchre and the 1st prize went to Ida Holmes and Marjorie Pell, 2nd prize was won by Lou Robins and Art Mockson and the Bobbie prize went to Al Langine and partner.

Belated birthday wishes go to Lola McColl who, on March 22nd, celebrated her 74 birthday.

Birthday wishes are extended to Saloil Mathers, Jim (Nipper) Alden, Mike Hughes, Paul Watson and Mrs. Vera Reil.

Happy Anniversary to Slim and Dorothy Graham in Gooderham.

York County Rugby Club has gone to England for a three week tour, listed on its roster is Eric Finlay of Tory Hill.

Also in England for three weeks is Nancy Anderson visiting relatives.

We wonder at this time who will have the more rigorous schedule - Eric playing soccer or Nancy visiting relatives?

March Break guests at the Len Foster residence in Tory Hill were Ricky and David Roylance of Aurora. Ricky will be remembered by our Tory Hill friends as the friend who broke both his arms last May 24th long week-end. Subsequent visits have been accident free.

Report from Queen's Park

BY MPP JOHN EAKINS

In October 1976 the Ministry of the Attorney General issued a White Paper on Court Administration, based upon the premise that justice in Ontario may be seriously undermined by the caseload crisis facing the courts of this province. This White Paper reports that it was clear by 1968 that great discrepancies existed in facilities and services available in various parts of the province, and only a systematic approach would ensure adequate facilities and level of service for all Ontarians. A major change in courts administration took place in 1968 when the province, and the Ministry of the Attorney General assumed, for the first time ever, responsibility for courts administration.

In 1970 the whole question of how traditional and ancient methods of courts administration could best be adapted to 20th Century needs was referred to the Ontario Law Reform Commission. The Commission's Report, completed in 1973, was endorsed by the government, although some concern was expressed about specific operational proposals.

A regional developmental project to test feasibility of various court reform proposals was initiated, for which purpose the Central West Region, a group of ten counties and judicial districts clustering around Hamilton, was selected, providing as it does a microcosm of the entire province. The objective of the project was to provide a setting for developing and testing administrative methods and services for the courts.

The Project Management Team concentrated on the following areas:

- (a) development of office standards for Provincial Courts (Criminal and Family Divisions);
- (b) general management of the court offices by the management team;
- (c) development of more effective techniques for allocating the work of court reporters and the preparation of transcripts;
- (d) development of statistical analysis methods and techniques;
- (e) development of evaluative criteria and standards related to court productivity;
- (f) case flow management.

According to the White Paper, in all but one crucial area, the Project Team achieved considerable success. The development of administrative support services permitted the project team to:

- (a) monitor the effectiveness of individual offices;
- (b) allocate administrative resources more effectively and efficiently;
- (c) develop a uniform response, throughout the area, to administrative changes in court operations.

However, the present divided administrative structure of the courts prevented any real progress in the key area of case flow management.

While the proposed court structure should permit the implementation of reforms necessary to ensure the public the level of service they presently require, further and other arrangements can be made to meet future needs.

See you next week.

Obituary

Fred Leveck dies in 95th year

The Township of Glamorgan has lost one of its oldest residents, Fred Leveck, at the age of 94, recently passed away after a long and active life on the 11th day of March 1977. On March 14th a requiem mass was held for him at St. Patrick's Church, Kinnmount. He was later interred at the Kinnmount Vault where he will later be buried beside his beloved wife in St. Patrick's Cemetery. He was born on a farm near Stoco on October 5, 1882. At the age of 36 he married the school teacher Eva Pearl Nelson, of Norwood, who predeceased him on October 22, 1949.

Fred Leveck was a man of many skills. As well as being an experienced woodsman he was also a farmer and did not hesitate to build a residence for the family. He is survived by five children; Francis of Port Perry, Walter and Mary of Gooderham,

Township of Cardiff Council

The Regular Meeting of the Council of the Township of Cardiff was held on the above date with the following members present: Malcolm McGillivray - Reeve; Mack Peters - Deputy Reeve; William Hutton, Ross Lawrence, Donald Wright - Councillors. Also in attendance was Mr. M. Ireland re: severance.

Donald Wright-W. Hutton: That the minutes of the last regular meeting held on February 10, 1977 be adopted as read. Carried.

Mack Peters-Ross Lawrence: That 1976 taxes in the amount of \$11.31 be refunded re: Prop. #050-250-00400. Carried.

Ross Lawrence - Donald Wright: That the program of proposed road expenditures for 1977 (Construction \$27,500, and Maintenance \$54,000) be adopted and submitted to the Ministry of Transportation and Communications. Carried.

Ross Lawrence-Mack Peters: That a by-law to strike uncollectible taxes from the tax roll be read. Read a first, second and third time, passed, signed and numbered 5-77. Carried.

Ross Lawrence - Donald Wright: That the firm of M.J. McAlpine Ltd., carry out phase one of the Municipal Bridge Appraisal at the upset limit of \$200.00 subject to the approval of the Ministry of Transportation and Communications. Carried.

Mack Peters-Ross Lawrence: That a request for a supplementary allocation of subsidy monies in the amount of \$200.00 for the municipal bridge appraisal be submitted to the Ministry of Transportation and Communications. Carried.

Ross Lawrence-Mack Peters, W. Hutton, Donald Wright: That the firm of

Campbell, Godfrey and Lewis be advised to proceed on our behalf with respect to the road situated on Lot 25, Con. 5, Carried.

Mack Peters-Ross Lawrence: That the quotation from Boice Motors Ltd., for a 1977 F-2010 International

Council doesn't want a conservation authority

A proposed conservation authority covering part of the municipality of Anson, Hindon and Minden is not exactly at the top of the list of priorities for the council.

Reeve Reg Booth said he could see no benefit for the municipality. "We wouldn't gain anything from it at all," he said.

The area in question is almost totally crown land and the municipality receives relatively no revenue from the area.

Reeve Booth said that there would be some benefits to the other areas involved in the authority. He pointed out that all Anson, Hindon and Minden can do is object. "We should go to their next meeting for sure," he said.

Council passed a resolution showing that the municipality is opposed to its inclusion in the conservation authority.

SHOE REPAIRS

BOB BARCLAY

Detachment investigated

from page 1

confirmed the rearrangement of scheduling at the Minden detachment. The rescheduling was done, he said, "to utilize our resources to put more men on the road out of the Minden detachment, and "to give the best coverage we can with what we have." Sgt. Welsh noted that "we haven't had any problems on the response time" to calls in Haliburton. He said, "the response time is good" and "we are trying to get more people on the road."

**Protect your children
against disease
through immunization.**

**This is what Ontario
is doing to help you.**

Immunization protects against polio, diphtheria, measles, rubella (German measles), whooping cough, mumps and tetanus. Although often considered to be "childhood diseases," they are anything but minor - measles, for instance, can lead to encephalitis (brain disease), a cause of retardation.

Here in Ontario, the Ministry of Health provides the vaccines and your Ontario Health Insurance Plan (OHIP) pays a fee to the physician for administering them.

But the responsibility for immunization - for making sure your children are protected - is still up to you. Have your children immunized by your family physician. Or, for school age children, use school immunization programs provided by Health Units.

Immunization is quick and convenient - vaccines against several diseases are often combined. And the only way to control these diseases is to immunize as many people as possible.

Your Ontario Government is doing its share - by providing vaccines and paying for immunization through OHIP.

Do your share - make sure your children are immunized. Consult your family physician, public health nurse or local medical officer of health.

A free booklet, "Immunization is your responsibility," is available with a chart showing what diseases your children should be immunized against, and at what ages. For your copy, write to:

HAL

Fire causes \$5,000 damage to home

A fire that broke out in a home owned by Paul Neath, in Stanhope Township, just south of the Airport, did an estimated \$5,000 worth of damage as home and contents were burned.

Break-ins at Red & White

Members of the Minden detachment of the Ontario Provincial Police are investigating two break-ins which occurred at Easton's Red and White store in Haliburton.

A break-in, which occurred sometime between the evening of March 19 to the morning of March 21 thieves netted \$304 in cash from a safe. The building was entered by an upstairs office window.

During the night of March 24 or the morning of March 25 the store was entered again and this time \$60 in cigarettes were stolen and \$20 in damage was done. Thieves entered the building by forcing a side loading door.

The Stanhope Fire Department was called to the scene through the services of REACT, the volunteer organization that monitors the CB channel reserved for emergency calls. Tim Priest of the Kinnis Lake Road was visiting in the area and noticed wisps of smoke coming from the Neath home. His call on the CB emergency channel was picked up by Stanhope Fireman Dale MacDonald, REACT unit 14, at Hall's Lake, and by Fireman Don Barker, according to Stanhope Fire Chief Richard Kinsman.

Mr. Priest's call was placed at 3:20 he said, and within half an hour the Stanhope pump and tanker trucks were on duty and the fire was well under control. A 250 gallon oil tank near the burning building cornered firemen, but it did not explode. Hydro lines were brought down in the blaze.

There was no one home at the time of the fire, which destroyed the building and contents. Wiring was suspected as a cause.

A fire in Stanhope Township last week caused an estimated \$5,000 damage to a house owned by Paul Neath. There was no one at home at the time of the

fire. The house is located just south of the Stanhope Airport off the Airport Road.

Police investigate area car crashes

A two vehicle accident, Saturday morning, resulted in \$150 to a pick-up truck driven by Dennis Byers, 29, of Haliburton.

Police did not have an estimate of the damage to a car owned by Allan Howe, 68, of Haliburton, which was parked at the time.

The accident took place in Haliburton Village. A two car accident, last Wednesday, resulted in a total of \$700 damage to the vehicles.

There was \$400 damage to a car driven by Lavern P. Lewis, 57, of Bancroft, and \$300 damage to a car driven by Clayton Hodgson, 16, of Haliburton.

The accident took place on Highway 121, east of Haliburton Village.

Hodgson has been charged with making a turn, not in safety.

There was a total of \$900 damage to two vehicles as the result of an accident last Wednesday, on Highway 35, South of Minden.

There was \$400 damage to a car driven by William Vanderhorst, 36, of Haliburton, and \$500 damage to

a car driven by William John Scott, 36, of Bay Ridges. Scott has been charged with passing on a roadway that was not clear.

A single car accident, on Highway 121, March 22,

resulted in \$650 damage to a car driven by Betty m. Austin, 38, of Haliburton. There was also \$20 damage to a sign post. The accident took place on highway 121 in Haliburton.

Minden News

by Jeanne Sears

Guests last week with Lillian and George Davidson were Alice and Joe Pietkiewicz of Toronto.

Next Sunday at 2:00 there will be "Easter in the Park" at the Centre, as the Minden Figure Skaters show their skills and there will be guest skaters as well.

Good wishes go to these people who are in or have been in hospital - Bill Elcome, John Johnson, Margaret Prentice, Jane Kent, Mrs. Alfred Milburn and Mrs. Hartley Stevenson.

The community sends belated good wishes to these people having birthdays in March, Emma Henderson, Ada Woolcott, Annie Iles, Bruce Sims, Alfred Richardson, Mrs. W. MacArthur, Mrs. E. Windover, Mrs. W.

Stone and many others.

Mr. & Mrs. Syd West of Lutterworth Estates, returned home last week from a holiday in Hawaii; a gift given them by their son and daughter-in-law of Grand Valley, Ontario.

At the weekly Mini Card Party, at the Parish Hall last Thursday afternoon, winners were, for bridge Norman Taylor, for cribbage Bill Bennett and Lillian Davidson and for euchre lone hands Hilda Harrison and Harry MacMinn and Lloyd Sedgwick.

There are some business moving; Recorder office will be beside the Library and Highlands Plumbing & Heating are moving on Main St., where the Recorder was situated.

News from Extendicare

BY CHARLES PLEWMAN

Involvement Extendicare does an excellent job in involving its residents. This is the more remarkable because so many of them are handicapped and circumscribed. If it were not for the staff most of them would be wallflowers. I suppose our St. Patrick's Day party was a good illustration of what I'm talking about.

Everybody, whether resident, visitor, or staff member, got into the act. We all felt that we were an integral part of the whole and should be contributing our bit. It is one thing to work for a person. It is a better thing to work with him. In the first instance you have to provide the driving power. In the second instance the person becomes self-propelling with the leader playing the role of a coach. While encouraging residents to get involved in the on going life of the home and to participate in specific activities, care has to be taken by the administration to see that they do not overdo it. Residents are encouraged to live up to their mental and physical potential but not go beyond it. This means that the administration has to walk the tight rope in its treatment of each resident according to his limitations and needs.

It is a mistaken viewpoint to think that the mere presence of an idea changes behaviour. The idea has to be accepted and practiced to become a part of our lives. If I had anything to do with the training of ministers, I would want to see that they had a comprehensive course on how to involve the laity. A few ministers would think this quite unnecessary as they feel that the Kingdom of God is going to be ushered in on the backs of their sermons. I am

surprised at the number of uninvolved laymen in the church. But to get back to Extendicare, I myself have been amazed at the amount of participation they have succeeded in getting from severely handicapped residents. These are people that the world in its hustle bustle has largely written off. Despite all the handicaps the staff has the residents playing games, doing horticulture, baking cakes, making rugs, just to mention a few. By presenting a wide range of activities they cause the residents to forget their troubles. Nothing is truer than the saying "What we fail to use we lose". Involvement - securing participation - is not an accident, it is the result of good leadership. Mrs. Miriam Lewis (Director of Activity) take a bow.

Residents are watching with interest the growth of the cuttings and seeds planted in our four fluorescent light units.

On Monday, the 21st, we had our usual workout and games. On Tuesday, the 22nd, we held our second Communion Service presided over by the Rev. Trevor Denny. It was well attended. In the afternoon we had a good Bingo game. On Wednesday, the 23rd, the Happy Gang met with Miss Andrea Ferrier, Regional Supervisor for the New Horizon program. Miss Ferrier appeared to be impressed with what had been done up to date. Most of the discussion that took place had to do with the budget. On Thursday, the 24th, we had another go at games and exercises. A going away party for Mrs. Norma Williamson was held by the staff at which time she was presented with a nice electric clock and cake. In her leaving we lose a very versatile nurse who entered into all of the fund and activities of the home. Mrs. Williamson has been on the staff since opening day, February 28, 1976. Sunday, March 27th, will be her last day here. We wish her every success in the future. We also had a merry birthday party, today, for those born in March. They were: Emily Davidson, Mabel Stone, John Young, Annie Johnston and Isabel Hogg. Thursday evening we had a Euchre Party. Our Devotional

period, on Friday, was led by Mr. Jim Cooper of the Gideons. He spoke of the atonement of Christ for our sins and said that His spirit should well up in our hearts. Miss Sheila Elston officiated at the piano.

Personals:

Elizabeth McIntosh enjoyed raising her 12 children in the Peterborough area. She now enjoys keeping a watchful eye on a couple of residents.

Bert McKelvey - was born in the Minden area where he brought up nine children. Most of his life was spent farming and working in the bush.

WORK IS LOVE MADE VISIBLE.

Attempting to improve fishing

While you're getting your fishing tackle in order for the coming season, we thought you'd like to get a line on what Environment Ontario is doing to improve the sport.

During the summer months, fish in many lakes die as the oxygen in the cold bottom water is depleted.

Artificially induced destratification is a fancy name for a simple process developed by the Ministry to help solve that problem.

By keeping the lake

mixed by mechanical means so oxygen is maintained at all levels, the Ministry has restored trout fisheries in two experimental lakes in northern Ontario with more planned in the future.

Another lake management technique used successfully to restore sport and commercial fishing involves the neutralization of acid lakes.

The condition is caused by acid rainfall from industrial sources. Many of these lakes have no fish population at all.

letter then goes on for a further page to expound on the fishing advantages of Quebec Province. The number of copies of this letter that have been mailed, and the origin of the mailing list used, were not known at this time. Copies of this letter were circulated to interested parties and this Chamber certainly intends to forward further copies of our Federal member, Bill Scott, and the Ontario Chamber of Commerce. The Provincial Ministry of Industry & Tourism has already expressed their extreme concern over this misdirection of the Federal offices efforts. It is certainly hoped that enough pressure will be brought to bear to correct this unforgivable action. The guest speaker for the dinner meeting was Mr. Wes Tebeau, Manager of West Michigan Tourist Association. He had many impressive facts to relate to us and his speech was not only informative but entertaining. One of the important facts that we felt was brought forth was that the strength of his organization was such that the government is not only anxious to have input from him, but in some instances rely entirely on their advice. At the same time, being conscious of this strength, their association listens very carefully to its membership and tires very hard to carry out the wishes of that membership.

While we were working at the show in Toronto, Council was meeting here in Haliburton to decide on this years budget. We were pleased to get word that County Council had decided to re-establish a \$12,000 grant for the Chamber. Last year when the grant was cut back to \$8,000 it left the chamber \$3,000 in the hole and it will still take considerable effort to overcome that deficit. It was disappointing, however, to hear that the decision was not unanimous and that some members of County Council still do not see the value of the Chamber of Commerce to the community as a whole. This County needs the Chamber of Commerce and the Chamber of Commerce needs the full backing of the County. Let us hope that next year the decision of County Council will be unanimous.

COMING EVENTS

April 1 - Skate-a-Thone, Minden Arena
April 9 - Maple Syrup Festival & Flea Market in Wilberforce
April 16 - Haliburton Curling Club Banquet, Haliburton Legion, Dinner & Dancing - \$15.00 per couple.

From the Chamber

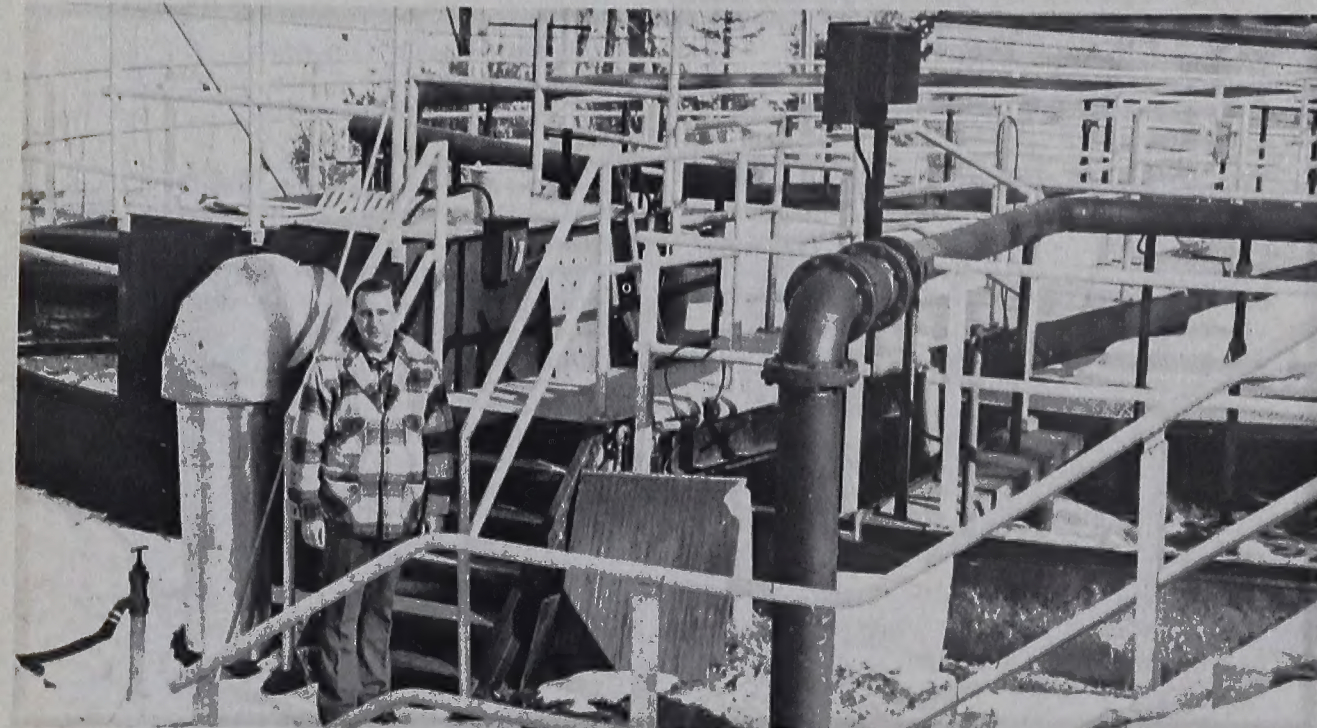

by Bob Stinson

It's good to be back. After ten days in Toronto, at the Sportsman Show, we are finally back in Haliburton Highlands. Ten days in Toronto is enough to make anyone really appreciate the county we live in. Most of the people working at the show, from tourist areas such as ours, were virtually nervous wrecks by the time the show closed Sunday night.

The Sportsman show this year certainly was a success from the point of view of those working there. We are continually hearing of restraint and of the fact that people will be doing considerably less spending this year but this is certainly not in evidence at the Toronto Sportsman Show. The interest shown would

certainly lead us to believe that people will be as interested in holidays this year as they were last. The interest in real estate seemed particularly high this year. In this respect, Haliburton was well represented with three brokers having their own booth at the show and four brokers working through the Chamber booth. We will be busy at the office this week getting out the list of inquiries to all our accommodation members.

Just before going to Toronto we attended a one day tourism seminar at Peterborough. The seminar was well attended and those participating found it well worth while. Following the seminar the annual meeting for C.O.T.A. was held. The members at the meeting were particularly shocked when a letter was brought forth by one of the members. The letter was written by Mr. George Tawse-Smith, Director of Marketing for the Canadian Office of Tourism. It is a form letter which has been sent to American fishermen addressed to Dear Angler. The letter for the first two pages explains the many advantages of coming to Canada to go fishing. It then goes on to say "Canada offers the fisherman such a vast choice, it's hard to decide where to go. Let me make a suggestion...just across our neighbourly border lies the finest fishing paradise you could imagine - in "LaBelle Province du Quebec". If you're tired of over-fished waters, this is your kind of place! The

Dysart et al Reeve, Murray Fearrey, says it won't be long now before the municipal sewage plant has enough work to do to make it run efficiently. Reeve Fearrey announced last week that the second phase

of the sewers for Haliburton Village has been given a go ahead by the Ministry of Environment and the work will begin early this summer.

Wait ends for sewers in Haliburton Village

Haliburton Village is now going to see the end of its long wait for a completed sewage disposal system. With the announcement last week from Minister of Environment, George Kerr, that money has been set aside for completion of the second phase of the project, Haliburton County has become as complete as it could expect in servicing for a rural area.

The sewer project in Minden got underway last week when construction crews began laying the first pipes.

It has been a long wait for the servicing in Haliburton Village, the council originally began discussions on the possibility at least 10 years ago. Six years ago the project was adopted by the council as one that is necessary in Haliburton Village.

At that time the Ministry of Environment seemed to fully comply that the project was needed and it appeared to be no problem in getting both phases of the sewers off the ground.

The first phase, which didn't include much of the residential area went ahead in good order, but from their the municipality ran into one stumbling block after another and the second phase seemed unlikely even a couple of months ago.

Somehow the Ministry has had a change of heart, perhaps do to hard work by our municipal council, many individuals and MPP John Eakins, and now the people of the village will get servicing.

Cut administration costs

Administration costs are going to have to come down for both Haliburton County Council and the Board of Education.

Rising costs are putting greater burdens on the taxpayers and one way to fight the rising costs is to make cutbacks in areas where the costs can be controlled.

Perhaps it isn't so necessary to have so many people sitting around the table at county council. Perhaps county council can become a meeting of the reeves, with the deputy reeves acting as alternates.

The voters of the various municipalities in Haliburton county have put enough faith in one person to act as reeve, that in turn that one person should be trusted enough to act for the municipality at county council.

If the council isn't sure that the person is doing a job for them at county council, perhaps they should go and sit in on a few meetings to see what is going on. At the last meeting of county council there was very little municipal representation on the spectator side. In all honesty, The Echo only recognized one, a councillor from Lutterworth.

Most people will say that cutting \$10,000 in a budget of \$600,000 won't make much difference for the taxpayers, but to change an old saying, governments seem to have become "penny foolish and then attempting to be pound wise," that doesn't work either.

Drop-in centre moves

Senior citizens in the Village of Haliburton must be wondering what is going on with their proposed senior citizen drop-in centre.

First it was suggested that the centre could possibly be part of a new curling club complex. From there it went to the Dysart Community Centre, and now, according to the minutes of the last meeting of the Seniors, is possibly back with the curling club.

The first hurdle for the group is to find a place as soon as possible. If the place they find is not entirely suitable, then other arrangements can be made at that time.

The interest for a senior citizen's centre has been high but it will begin to drop unless the senior citizen drop-in centre soon becomes a reality.

Pic of the Past

Pictured above is the great Lindsay Midgets Hockey Club of 1937-38. This was one of the greatest hockey clubs ever assembled and as you will notice, some of the players on that team came from Haliburton. In this particular year they went to the Junior C finals only to lose out to Aurora three games to two, in a very close series. Front row left to right, Jim Leahy, Glen Dart, Bruce Betts, Ace Nicholls, Back row left to right, Wilf Ferguson, Vance English, Bill Elliott, Ross Davidson, Bill Irwin, Ted Brennan and Leo Cook. Our thanks to Vance English, of Haliburton, for submitting this photo.

Haliburton Highlights

BY CREIGHTON FEIR

The Rev. David Watson, former minister at the Wilberforce United Church, was a recent speaker at the regular meeting of the Haliburton Rotary Club. David, who was a former member of the Club, was in his usual fine form, telling how television can be used for the benefit and entertainment of the deaf.

The Haliburton Curling Club are holding their banquet at the Royal Canadian Legion Hall, in Haliburton, on Saturday, April 16th, at \$15.00 per couple. Tickets may be secured from Stan's Texaco, Anne Hopkins, or the Bank of Montreal.

We would advise anyone who is thinking of double parking on the Main Street of Haliburton to give it a second thought. The Ontario Provincial Police are cracking down on this double parking and you could end with paying a fine for this offence.

Haliburton's first Pirate's Bonanza Days starts this Wednesday, March 30th, and runs through until April 9th. You'll find a treasure of values at participating merchants during these Pirate's Bonanza Days. Remember that there are over \$2,300.00 in cash and prizes just waiting for you. All you have to do is to take your key, which is attached on the front cover of the supplement in this weeks paper, and try it at the merchants place of business who are participating in this Pirate's Bonanza. Buy an extra Echo and get an extra chance.

The Haliburton Rotary Club's exchange student is at present staying at the home of Mr.

& Mrs. Marvin Varty.

You have to hand it to the citizens of Wilberforce. When they go out on a fund raising mission they don't fool around. Last Friday night they held a Skate-A-Thon and raised over \$4,000.00 for their new arena fund.

There is going to be a dance and Amateur Contest, at the Royal Canadian Legion, in Haliburton, on Saturday, April 9th, starting at 8:00 p.m. Admission is \$2.00 per couple. Anyone interested in entering the Amateur Contest must be 18 years of age or over. There will be prizes for the winners and if you are interested in entering, please get in touch with either Harold Bannon or Oscar Stewart.

The Rotary Club of Haliburton are offering an Executive Van for their draw in conjunction with this years Annual Rotary Club Summer Carnival.

The Annual March School Break is over. So many people took advantage of this holiday that it's impossible to name them all. Some stayed and toured Ontario while others went to the sunny south.

Last week we had another touch of winter here in the Highlands of Haliburton but we hope that spring is just around the corner.

Did you know that in most organizations 10 per cent do all the work, 20 per cent criticize and 70 per cent don't do anything. How true this is.

Editor's notebook

BY JIM BADGLEY

Haliburton County Council certainly isn't in favour of closing shoreline allowances and deeding them to the adjacent land owners.

I would think that Lutterworth's representatives, on county council, thought that they would be flatly rejected, but they must have been a little bit amazed at the lopsided result of the recorded vote, 24-3 against the bylaw to support the township's bylaw to close a portion of shoreline. Lutterworth has three votes on the council.

Members of the county council must have felt that they were just voting for voting sake anyway because Lutterworth Reeve, Patrick Conaghan stated in the beginning that he would take the matter further, no matter what happened at the county level.

It is not exactly a way to influence votes when you tell a guy that you really don't care if he votes against you because you don't value his opinion enough to believe him.

Perhaps Mr. Conaghan would have been better not to bring the matter to the county at all. How is a 24-3 vote going to look when he takes

his problem to Queen's Park. Does he not think that the ministry officials involved in the problem are going to look at the vote and suggest to Mr. Conaghan that the elected officials of Haliburton County do not want to see a change in shoreline allowances?

A number of the members of county council have been involved in municipal politics for a number of years. No doubt their opinions are highly regarded at Queen's Park.

Queen's Park would be making an awful mistake if it overrules a county government that seems so definitely against the deeding of the shoreline allowances over to the adjacent property owners.

If the 66 foot right of way had been a problem in Haliburton County, and if it had been an issue of great importance to the voters of Haliburton County, then certainly the present county council would not have been elected.

Mr. Conaghan might argue that his council was elected on that issue but I am wondering if very many cottagers realize that they have full right to control the allowance unless there are unusual circumstances.

Letters to the Editor

Dear Sir:

Regarding Mr. J.D. Hodgson's statement in last weeks paper on early closing of schools, due to road and weather conditions.

I disagree with him on many aspects of the article. In his statement Mr. Hodgson says "in the MAJORITY of families both parents work." This is not true of Haliburton and vicinity. Most families have one or both parents home in bad weather, because of the high unemployment in winter months.

His statement on being safer in a bus bogged down, is quite wrong. The probabilities of a bus being bogged down, without an accident are quite small. If a bus slides off the road into a snowbank, the possibilities are 50-50 it will roll over, thus endangering, in some cases, over 60 children per bus, without even a seat belt. Even a bump, could and would send some children flying off the seat, onto the floor, or into the seat in front.

Road conditions in this area, very seldom improve, in the hour Mr. Hodgson says it would take to get children moving. They usually get worse. A road that is slippery at noon, could be treacherous at three-thirty.

Children are not stupid. Every child I know, on finding himself alone and locked out of his home, has enough sense to walk to a neighbours, even if it is a mile. (Mr. Hodgson's idea of rural areas is very outdated).

In a storm, I want my children home, where I can see them and know they are safe. I don't want them trapped in a school bus, and I think most other parents feel the same.

I don't believe one incident should be good enough cause to endanger hundreds of other children.

I believe childrens safety is more important, than a few hours of schooling. Even one injury, on a school bus, could result in months of lost school hours.

Thank you for allowing me to express my opinion.

J.M. Barry

P.S. Pity the poor school bus driver, caught for hours with all those little screaming dears.

Attention Mr. Badgley:

I don't know who writes your sports for you, but I gather it must be someone from the Midgets or the Huskies or maybe both?

There have been other teams playing in Haliburton this year. For instance the Bantams haven't done to bad for a bunch of what people thought were a bunch of misfits. We may not have any super-stars, but we do have a bunch of boys that play their hearts out and have proven they can win hockey games. How about a little credit for the only team in Haliburton that got out of their own zone play-offs with a win.

Thank you,
Meta Manary.

We, the parents of these boys would like to thank Rick, Larry and Gerald for the time and effort that they have put into this team.

Haliburton Minor Hockey Assoc.,
c/o Mr. Len Salvatori,
Haliburton, Ontario

Dear Len:

At a recent meeting of the Haliburton County Ministerial Association, we discussed the matter of Organized Sports on Sundays in our County, especially the matter for scheduling hockey games on Sundays. We are of the opinion that this has a very serious effect on family life. It disrupts the planning for Sunday School and other church services, for that day.

We would ask that you discuss this matter with your officials and as we are all parents and community leaders, we want the best for our youth and trust that you will understand our concern.

Yours very Truly,

Jim Cooper,
Secretary Treasurer,
Haliburton County Ministerial Assoc.

More letters see page 10

This and That

BY JENNIFER WOODS

I would like to quote the introductory words from an excellent book on how to prepare your own baby food **The Organic Baby Food Book** by Ann Thompson. I quote, "No mother need be dependent on jars and cans of commercially prepared food for her baby, now that Ann Thompson has compiled this unique cookbook. With the help of an ordinary blender, you can prepare the over 200 nutritionally sound, baby tested recipes in fifteen minutes or less. Not much extra work for you, but what a difference it will make for your baby."

"When you feed your infant organically grown fresh foods such as fruits and vegetables, whole grain cereals and soybeans, eggs and milk you're making sure that your baby gets all the natural food values and vitamins, with none of the artificial additives and preservatives found in processed foods." Unquote.

Basic Cereal for Baby

1/4 cup sesame seeds 1 cup almonds
1/4 cup wheat germ 3 cups rolled oats
1/4 cup Safflower oil 1/4 cup honey

Water to moisten

Put some sesame seeds and almonds through a grinder until a powdery texture is achieved. (you can also use your blender). Mix together with wheat germ and oats. Add oil and honey and enough water to barely moisten all the ingredients and toss very well. Spread evenly on a cookie sheet and bake in a slow oven (300 F.) for 45 minutes to one hour. 10 to 15 servings.

Serve from three months on. Begin with a couple of tablespoons and observe how well the baby digests it. To serve a small baby mix 1/2 a cup of cereal with 1/2 cup yogurt and enough milk to moisten well. Run it through the blender for a few seconds. You can also mix in some blended fruits (banana, peaches or apple). Contains iron, calcium, phosphorus, potassium and vitamin B.

Simple Soybean Pulp

To cook Soybeans: Soak 1 cup of soybeans in 4 cups of water overnight in the fridge. Next morning bring beans and soaking water to a boil. Cover and reduce heat and let simmer slowly until done, about 2 1/2 hours.

To make the soybean pulp for baby combine 1 cup of cooked soybeans with a splash of milk in the blender and puree until the soybeans are completely dissolved in a thick, pulpy paste. Serve from 6 months on. It is great as a main course because it contains protein, iron, phosphorus, calcium, vitamins A and B.

Next week I will have some more Baby food recipes for you.

COUNTY ECHO FAMILY

Maple Lake News by Ada Gibbs

Mr. and Mrs. Don McMurtry and children are holidaying at Bythia Farm and visiting relatives in West Guilford and Minden, also Grandpa Barry at Extencicare.

Speaking of Extencicare, several of our local people attended the St. Patrick's party there, and thoroughly enjoyed mixing with the residents and helping them to have a good time. Many thanks for the kind invitation which allowed outsiders to be present on this happy occasion.

Miss Dora Dawson of Minden enjoyed a visit at her old home on the lake, a guest of Mrs. W. Johnson.

Mrs. Violet Smith accompanied the Drydales on a recent business trip to Peterborough.

The Tuesday Night Combines Bowling League sponsored a second progressive euchre party last Thursday in the West Guilford recreation centre. Twelve tables were in play and everyone had such an enjoyable evening, that the Committee have set April 14th as a date for a third card party.

Miss Ada and Mr. Wilbert Gibbs visited old friends, the Roy Vandicleaf's in Baysville last Monday. Also the Gibbs spent last Saturday with relatives, the Frank Prentices at Pigeon Lake Cottages near Bobcaygeon.

Mrs. Grace Martin is enjoying a short vacation with her family and friends at Lakefield during the school break.

Grandpa and Grandma Drysdale entertained little Miss Jeannie Morrison of West Guilford for a few days.

This week in hospital

In the hospital last week were Mr. Clifford Smith, Mr. Nells Warren, Mrs. Edith Sisson, Mrs. Ethel Fader, Mrs. Brenda Pelford and baby boy and Mrs. Delores Bailey and baby boy.

Patient care in homes

If you have an elderly person at home who is chronically ill, St. John Ambulance can teach you how to make your patient more comfortable and conserve your own energy at the same time, by taking a course in "Patient Care in The Home."

Mr. and Mrs. B. Napier Simpson and son, have been at their Stanhope home, Blagdon Hill for a week. Although business called Mr. Simpson home to the city, Mrs. Simpson and son remained for a second week.

Friends of Mrs. Margaret Finney have had a word more from her. She is enjoying her beloved music still, at Unionville, and reports having helped with a St. Patrick's Day programme

at the Villa. Mrs. Finney would appreciate hearing from former neighbours and friends.

It was not the "voice of the turtle that was heard throughout the land" last week but the happy voices of children as they enjoyed the holiday given them because of the mid-term school break.

Rev. G. Johnson, Mrs. Johnson and family also

enjoyed the school break with Mrs. Winnifred Johnson at the farm home by the lake.

A fine, new, large magazine rack has been installed in the Stanhope Library recently. This was donated and delivered from the Lake Ontario Regional Library Office. It was a much needed item to allow a better display of all the various types of magazines. I'm sure the librarians, as well as the general public,

will really appreciate having the new magazine rack.

Miss Cathy McEwin has been holidaying with her grandparents Mr. and Mrs. Gordon Carr.

A surprise visitor in the community one day last week was Mr. Mac Howarth of Dover, Delaware. Mac was vacationing in Canada and called on relatives at Maple Lake before returning home.

County sports

BY JIM BADGLEY

There will be no beer at CNE Stadium. Those hot afternoons during doubleheaders will have to be endured with soft drinks. But will they?

Has the provincial government made some kind of a mistake, about whether beer should be sold during major league baseball games in Toronto.

I would think they have. I would be somewhat worried that people will make baseball at the Stadium a bring your own affair, where instead of paper cups the stuff comes in breakable bottles, which can also cause some problems for players and spectators alike.

The hockey tournament season is finally reaching an end. There will be sighs of relief from the many sports departments in the news media around Ontario, but few realize that is when the work begins.

There is little trouble filling the sports pages in the middle of the hockey season, and then hockey organizers give us a little boost with tournaments at the end.

To fill a sports page during the hockey tournament season means showing up at the arena a couple of times on a Saturday, getting pictures of winners and local teams, and then calling someone for the results later.

Now what are we going to do? It is the in between season that turns most sports editors grey. During the few months between baseball and hockey one has to rely on a great deal of thought to fill up the sports pages.

At times it even becomes questionable, what is sports and what isn't. A sports editor, desperate for copy, can see the sport in a Church Social.

Now if I was organizing a new sport in Ontario, I would make sure that it was played in April and May when there is little competition for spectators of players.

Fenelon Falls wins 3-1 over Minden

Two goals put away by Fenelon Falls' Paul Young in the last two minutes of play, put Minden Yoke Electric/Red and White Atoms on the bottom of Monday's first game in the three out of five O.M.H.A. zone finals series.

The Minden Atoms lost the match 3-1, after opening the scoring late in the game at 2:34 of the third period.

Doug Schell was the marksman, picking up the play from Scott Hamilton.

At 11:20 of the period, Fenelon broke through to tie the game on a goal by Pat Townley.

Minden kept the game even until Paul Young scored for Fenelon with 1:19 remaining. With 30 seconds on the clock, Young was again successful, bringing the final score to 3-1.

Minden outplayed Fenelon, especially in the early parts of the game in shots on net, but the Fenelon goalie played an excellent game and coupled with the late scoring plays, helped his team to a win.

The Minden Atoms host Fenelon Thursday at 7:00 p.m. for the second game of the series. They need a good crowd, and should be geared for a winning game.

The third game of the series will be played Saturday, in Minden, at 2:00 p.m., and the fourth; Monday at 7:00 p.m., in Fenelon Falls. The fifth game is scheduled for menden Thursday, April 7, 7:00 p.m.

As well as the records show, this year marks the first time that Minden has sent an Atom team into zone finals.

The accounts of the O.M.H.A. Atoms games played from March 17 to 21, were omitted from the last issue due to an error in production for which we apologize.

Use lottery funds as intended

Anson, Hindon and Minden Council certainly is not in favor of using Provincial or Wintario Lottery Funds for anything but what they were intended.

The council was asked to support a resolution from the Municipality of Nanticoke which asked that Provincial Lottery funds be used in the case of storm damage.

Anson, Hindon and Minden Reeve Reg Booth said, "Once you open the door there will be nothing left for what we would use it for."

COUNTY ECHO SPORTS

Hydro tops in tournament

There was lots of action at the Minden Arena last Saturday when teams from Fenelon Falls, Kinmount and Minden took part in the Greg Anderson Memorial Hockey Tournament. A team from Minden

Ontario Hydro won the championship by defeating Kinmount in the finals. Fenelon Falls took the consolation championships.

Four goals in final frame gives Falls win

Fenelon Falls Ormells scored four goals in the first period and four goals in the final frame to come up with an 8-5 win over Minden Rockcliffe Foamblowers in the tournament played in Minden Saturday.

Minden got on the score-sheet first when Larry Kent scored unassisted. The goal came at the three minute mark.

Pat Russell evened the count for Fenelon Falls on a play from Murray Powell at 5:30 of the first period.

Powell gave Fenelon a 2-1 lead at the 8:40 mark on a play from Ron Raymer.

Bob Causter ran the count to 3-1 at 15:20 with an unassisted goal.

Raymer scored the final goal of the first period to give Fenelon Falls a 4-1 lead. Garry Guthrie assisted on the play.

An unassisted goal by Dean Hewitt put Minden back into the game at 12:50 of the second period.

Royce Miller put the Foamblowers within one

goal at the 16 minute mark on a play from Leigh Bull.

Fenelon Falls opened the scoring up in the final period when Russell scored unassisted at 1:10.

Bull put Minden back into the contest at 1:45 of the period on a play from Hewitt.

Russell gave Fenelon a two goal edge again at 4:20 of the period when he connected on another unassisted marker.

Dave Caister put the icing on the cake for Fenelon 30 seconds later when he scored from Russell.

Hewitt came back for one

more Minden goal at 8:25 on a play from Miller.

Russell scored the final goal of the game at 13:42 on another unassisted play.

Kinmount wins over Rockcliffe

In the first game of the Greg Anderson Memorial Tournament, Kinmount Imperials came back from a two goal deficit at the end of the second period to down Minden Rockcliffe 7-4.

Scoring for Kinmount in the contest were John Barkwell with four, Terry Hartin, John Dettman and Mike McCluney.

Minden Rockcliffe goals were scored by Dean Hewitt with two Jim Todd and Larry Kent.

In the second game of the tournament Minden Hydro scored four goals in each of the first two periods and coasted to an 8-1 win over Fenelon Falls.

Larry Sawyer scored five times for Minden while the other goals went to Everett McKnight, Murray Sisson and Sheridan Kellett.

Final junior test day at figure skating club

With the end of the figure skating season fast approaching, the final Junior

Test day was held March 15th.

Passing badge 3 was Brian Turner.

Passing Badge 4 were Shontel Morrison, Andrew Milne, Tina Bailey, Christin Hore and Michelle Parish.

Successful in Badge 6 were Melissa Creelman and Renee Curry.

Passing Badge 8 and 9 were Heidi Whittaker, Badge 10 was Margaret Milne and Badge 12 were Shelly Hore and Suzanne Fajar.

Club members are working now to prepare members for the Pop Concert on April 3rd.

Winners of the poster contest held in local schools, to advertise the concert were: First Prize - Kim Ward of Haliburton; Second Prize, Kathy Austin of Haliburton; Third Prize, Jane Taylor of Wilberforce.

Congratulations to the Winners. Look for these posters displayed at various places in the area.

In the Senior Test day held in Minden on March 27th, the following club members were successful, preliminary figures, Shona Ross and First Figures, Lee Potter.

Preliminary Dance were, Dutch Waltz - Susan Milne and Shona Ross and Canasta Martha Carnochan.

Junior Bronze Dances were Fiesta - Lee Potter and Jen Fox and Nancy Shipley.

Senior Bronze Dances were: European Waltz - Anne Marie Van Lieshout and Foxtrot - Anne Marie VanLieshout.

At the test day held in Fenelon Falls, on March 27th, Penny Bird passed her European Waltz.

Minden Atoms win round robin semi-finals

With only one goal scored against them and 14 to their credit, the Minden Yake Electric/Red and White Atoms left the round robin semi-final series to enter final playoffs with Fenelon Falls.

The first of three wins last week was played Thursday March 17, at 6:00 in Minden, as the Atoms downed Bobcaygeon 4-0.

Minden put in two first period goals and scored twice in the third to come up with the four point total.

Paul Walker was the first to score, unassisted, and his

effort was followed by an unassisted goal credited to Scott Hamilton.

Kevin Warburton connected from Greg Newell to score the third goal at the 1:06 mark of the third period, and Doug Schell teamed up with Jeff Stamp to put in the last goal with just over a minute to play.

Friday, March 18 at 7:00 Minden's Atoms played to an 8-1 victory over Fenelon Falls in a good clean game.

After a scoreless first frame, Minden's Jeff Stamp picked up the first goal, with an assist going to Kevin

Warburton at the 2:26 mark of the second period.

Scott Hamilton scored next on a play from Doug Schell, Fenelon made the scoresheet on an unassisted shot from Captain Dan Webster, leaving the second period 2-1 for Minden as the teams headed for the dressing rooms.

Back on the ice for the third, Minden put in six more goals, two from Doug Schell and two from Scott Yake, both of whom picked up one assist in the game to share top point counts.

Robby McLeod scored the third Minden goal, assisted by Kevin Warburton.

Scott Yake took an unassisted goal, at 3:51 followed by Doug Schell scoring from Jeff Stamp. On the next play, Scott Yake and Scott Hamilton teamed up to give Doug Schell the puck for the sixth Minden marker at 8:51.

Jeff Stamp and Scott Yake finished off the scoring with an unassisted goal each tucked away with 3:23 and 54 seconds remaining.

Friday's game was a fine example of the way the Atoms can get together, keeping up a consistent effort with the know how that has set them ahead throughout the season.

Sunday, March 20 saw a rough game played away against Bobcaygeon. Minden took a total of 16 minutes in penalties more than in both previous games combined and Bobcaygeon spent 18 minutes in the box.

Minden came out on top with a 2-0 lead on goals scored by Scott Hamilton.

Hamilton was assisted on his first success at 5:31 of the first period, and connected from John Dillon for the second at 7:35 of period two.

Rockcliffe Foamblowers

Jets fly over Flyers for second

The Flyers couldn't get off the ground this week so the Jets flew over them for 7 putting the Jets back in second place with 27. However, the Sooners are still well out in front with 37 although they were only able to take one game from the Fonzies.

Hall-e-Hawks took 5 from the Floozies leaving them with 26 points. Shirley Hamilton took over the high single with handicap (313) with 674 (303); Wes Stata 651 (248, 217); Harry Henderson 649 (232, 225); Sandy Barr 640 (280); Ev Griffin 613 (267).

Good single games: Art Beatty 245; Linda Morrison & Joyce Griffin 240; Ev Stata 211; Juanita Sisson 210; Vi Cornish 207; Betty Wise 203; Gerry Pinch & Norma Parish 202; Fran Woods 201, and Caryl Harrison 200.

Township of Stanhope Council meeting minutes for March

Members present included Reeve, S.G. Nesbitt, Deputy-Reeve James Harrison and Councillors, B. Napier Simpson, Jr., John Tomlinson and Elgin Stouffer.

Also in attendance were: Mrs. Louise Watson and Mr. James MacLean - Airport Committee; Mr. Jamie Chambers, re: property dispute; Mr. Morris MacLachlan re: road closing; Mr. Larry VanLieshout and Mr. Steve Rickard re: proposed subdivision; Mr. Bruce Cook, Road Superintendent; Mr. Richard Kinsman Office

Mr. Richard Kinsman and Mr. Carl Harrison - Fire Department; Mr. Bernard Walsh - Fire Marshal's Office; Mr. John Barclay - Recreation Committee, Miss Sue McLaughlin - Haliburton Echo and Mr. Bill Foote - Minden Progress.

Moved by John Tomlinson Seconded by Elgin Stouffer. Be it resolved the minutes of the regular meeting held February 9, 1977 be adopted as circulated. Carried.

Moved by John Tomlinson Seconded by Jim Harrison. Whereas the Provisional County of Haliburton Board of Education has forwarded the 1977 requisition of monies for elementary and secondary school purposes:

And Whereas the council of the Township of Stanhope is of the opinion, the apportionment made imposes an undue burden on the rate-payers of this Township;

And Also Whereas Statutes authorize the council to make application to the Board of Education for an

Arbitration to determine the proportion of sums required for school purposes that each Municipality shall bear in such year;

Now Therefore the Council of the Corporation of the Township of Stanhope hereby makes application to the Provisional County of Haliburton Board of Education for an arbitration to determine the proportion of sums for school purpose that each Municipality shall bear in 1977.

CARRIED

Moved by B. Napier Simpson, Jr. Seconded by John D. Tomlinson. Be it resolved that this council express to the Ministry of Treasury, Economics and Intergovernmental Affairs, Province of Ontario, its concern and alarm to be advised at a recent Ontario Municipal Board Hearing involving Educational Levies, that the 1974 assessments of the County are considered inaccurate and no better than those of 1969. Council strongly objects to this flagrant waste of public funds. Carried.

Moved by B. Napier Simpson, Jr., Seconded by Elgin Stouffer. Be it resolved the clerk be authorized and directed to take appropriate action to obtain the most up-to-date market value figures available for each Municipality in the Provisional County of Haliburton. Carried.

Moved by B. Napier Simpson, Jr., Seconded by Jim Harrison. Be it resolved that council is not in agreement with closing the 66' original allowance for Road adjacent to Lot 6, Con.

as this is a right of way to the water. It is a general policy of this council not to close unopened original allowances for road. Carried.

Moved by Jim Harrison. Seconded by B. Napier Simpson, Jr. Be it resolved the clerk forward a "Terms of Reference Form" relating to the Inspection of Municipal Bridges to Totten, Sims and Hubicki Associates Ltd., and Ralph E. Cryslar, P. Eng., for their consideration and price quotations. Carried.

Moved by John D. Tomlinson, Seconded by Elgin Stouffer. Be it resolved that council request a maximum amount of additional eligible monies from the Ministry of Housing to this Township to be administered under the Ontario Home Renewal Program. Carried.

Moved by B. Napier Simpson, Jr. Seconded by Jim Harrison. Be it resolved the clerk contact Mr. Dennis Farnsworth advising that Road Closing By-law 70-4 has now been completed and a deed for the road allowance will be forwarded upon receipt of the total amount of cost related expenses. Carried.

Moved by John D. Tomlinson, Seconded by Elgin Stouffer. Be it resolved that council agree to sell and deed that part of an original allowance for road on part Lot 31, Con. A, Township of Stanhope, more particularly described as parts 1 and 2 on plan of survey by H.C. Bishop, O.L.S. dated February 4, 1977 at a purchase price of \$185, subject to successful completion of the by-law. It is understood that cost related expenses will be absorbed by the purchasers. Carried.

Moved by John D. Tomlinson, Seconded by B. Napier Simpson, Jr., Be it resolved that council defer applications for grants from

Wintario and the Community Recreation Act concerning Fire Hall Addition until conditions of grants from the Community Recreation Act are clarified in writing from John Raynor. Carried.

Moved by John D. Tomlinson, Seconded by Jim Harrison. Be it resolved that

council approve payments totalling \$4,204.00 under the 1976/77 Local Initiatives Program for the Township of Stanhope. Carried.

Moved by John Tomlinson, Seconded by Elgin Stouffer. Be it resolved that General Accounts totalling \$3,408.66: February 1977

Welfare totalling \$1,346.00 and Road Voucher #2 totalling \$6,161.26 be allowed for payment. Carried.

By-law 77-6 to stop up, close and sell a portion of original allowance for road in the Township of Stanhope was given its third reading, passed, signed and sealed.

Carried.

Moved by John D. Tomlinson, Seconded by B. Napier Simpson, Jr., Be it resolved that council adjourn at 5:00 p.m., until April 13, 1977 at 9:30 a.m., unless called sooner by the Reeve. Carried.

REACT volunteer group

React is an organization of volunteer citizens radio operators who serve their communities with emergency and highway safety communications as members of local REACT teams. REACT International Headquarters based in Chicago, Illinois, coordinates the efforts of local groups, encourages the formation of new groups, provides guidelines for their operation, and promotes effective utilization of this volunteer resource of public safety, civil preparedness and other appropriate agencies.

A strong, mature REACT organization is now prepared to meet even greater and more challenging future demands in Haliburton County.

The rapid growth and expansion of the General Radio Service is indicative of the growing awareness among the motoring public of the value highway communications of this type. Because two-way radio is at the heart of the REACT program, it has the unique ability to blend the individual efforts of dedicated volunteers into a cohesive local communications team to link vital public services with the private citizen.

For a long time people have been looking for new ways to talk with strangers and meet people, and the

General Radio Service Band is it.

Limited for years to a small universe of amateur radio buffs and over-the-road truckdrivers, C.B. has suddenly, if not alarmingly, taken on the proportions of a full-fledged cultural phenomenon. Everybody is sprouting "ears"; motorists, police, firemen, hunters, boaters, campers, construction workers, doctors, housewives, and just plain C.B. nuts.

Printed circuits and miniaturized components have brought the price of a transceiver to less than

\$100.00, and Citizen's Band radio is in the hands of people everywhere. The air is clogged with "rocket jaws" and "rubberbanders".

As with any new major development in our modern world that has had a sudden birth and an overwhelmingly rapid growth, the General Radio Service has developed severe and serious problems. It is hoped that G.R.S. operators in our Haliburton Highlands will read our REACT team news and use the points mentioned to become better radio operators.

One of the worst illegal

errors that individual operators are ere to is the offence of using a "handle", or, the fact of not using their assigned XM-numbers, and for some reason new radio operators in Haliburton County are notorious for doing this.

It is a fact that according to the "General Radio Regulations, made under the Radio Act", it is illegal in Canada to initiate a G.R.S. call without using your "call numbers", as issued by the Department of Communications.

According to Regulation 75.3, "A licensed station shall transmit its assigned call sign:

(a) at the beginning and at the end of each exchange of communications in which it is engaged, and
(b) at the end of each test transmission."

Each and every radio station is issued a call sign which begins with the letters XM, followed by five or six numerical figures; the first two identify the Department of Communications district office issuing the license.

Each and every radio station must transmit its full assigned call sign at the beginning and at the end of each exchange of communications and at the end of each test transmission. This does not mean one cannot use a "handle" along with one's assigned call sign.

The several Haliburton bases have been noticed not using their call signs. All these operators were issued call signs. It would be greatly appreciated if those bases and all radio operators would use their radio call signs and become responsible radio operators. If proper radio procedures aren't followed it will spoil the air waves for everyone and we will rapidly inherit the problems that have made headlines in other larger centres.

For your own protection, do not abbreviate your call sign when using your radio station under the above situations. If you are proud of your station and responsible for its operation, there is no need to hide its identity.

Until next time 73's & 88's and we're clear frequency.

Silver medals for jubilee

Silver medallions for all school children and grants of up to \$5,000 each to encourage municipalities to hold special events are among Ontario's plans for celebrating the 25th anniversary of Queen Elizabeth's accession to the throne.

Premier William Davis has announced that each

student in Ontario will receive the special medallion which carries the official Silver Jubilee emblem on the obverse and the Province of Ontario Coat-of-Arms on the reverse.

Production of the medallions has already begun.

The Premier said he will write to all municipal officials advising them that "one of the ways the Government of Ontario wishes to recognize the historic importance of the Silver Jubilee is by en-

couraging municipalities and villages to formulate celebration plans for their communities."

Wintario grants will be available for these special local events with a significant arts or heritage component. The maximum per municipality is \$5,000, matching the money raised locally.

Premier Davis said he and his family hope to attend several of the many special events being planned in Ontario in celebration of the Silver Jubilee.

Among the many special Jubilee events already scheduled are a Silver Jubilee Day at Ontario Place on June 5, an Ecumenical Thanksgiving Service at the Cathedral Church of St. James on June 12, a special Dominion Day Festival on July 1 and a Military Pageant at the Canadian National Exhibition on September 11.

TODAY'S HEALTH

It's the smoker who's in the minority now

by David Woods

In the Western nations birth rates may be in decline. But there's one segment of the population that's growing by leaps and bounds — the non-smokers.

A decade ago, Canadian non-smokers more than 15 years old formed a majority, but only just — 51.6 per cent. Even though that's a shade over the slender margin needed to retain control in a boardroom, it didn't give the non-smokers much clout. They still had to endure smoke in most public places.

By 1975, the non-smoking population increased to 58 per cent. Earlier this year, the Ontario Minister of Health commented: "It wouldn't surprise me to find the separation had gone to a clear 20 points — that's to say, 60 per cent non-smokers against 40 per cent smokers."

"Against" is an appropriate word in this context. The non-smoking segment of the population has had to fight hard for its rights.

But gradually, they're winning concessions: designated non-smoking areas in airplanes, restaurants and stores; and a proliferation of signs requesting that people refrain from smoking in other public places.

Now, the Ministry of Health has produced a booklet of guidelines for the establishment of non-smoking areas. Its cover carries a symbol you're likely to see more often in the near future — a red circle with a lighted cigarette inside it; and an

emphatic diagonal red line across the circle. A clear indication that this is a place where the air is to remain clear... of tobacco fumes.

Despite the dramatic increase in the percentage of non-smokers in the population, the total number of cigarettes sold in Canada continues to rise each year. It's been suggested that the trend towards reducing tar and nicotine content may even have contributed to increased per capita consumption of cigarettes.

The evidence condemning cigarette smoking as a contributing factor in such diseases as lung cancer and emphysema continues to mount. A recent report in the *British Medical Journal*, for example, based on a 20-year study of the smoking habits and health status of more than 34,000 male physicians in the United Kingdom shows that the death rate ratio of smokers to lifelong non-smokers under 70 is an incredible two-to-one.

With even the most hardened tobacco puffers wistfully wishing they could abandon the habit, and with non-smokers increasingly and visibly asserting their right to smoke-free air, maybe this is the time for smokers to get on the winning side. As the slogans say: "Join the Majority"...

A pamphlet entitled *Quitting... A Mind Game* is available without charge from the Health Resource Centre, Communications Branch, Ontario Ministry of Health, Hepburn Block, Queen's Park, Toronto, Ontario M7A 1S2.

Victoria and Grey Trust Company

W.J. Shields
Victoria and Grey Trust Company announces the appointment of Mr. W.J. Shields as Chairman of the Lindsay Advisory Board.

HARC News

On April 17th the Haliburton area radio club will be holding their once a month meeting at the high school, at 1:00 sharp! All G.R.S. operators are welcome to attend this meeting. We would also like to see a good turnout of members, after all, it is your club so come out and support it.

The next on-the-air net call will be April 15 at 9:00 p.m., on channel 22. This is also open to any G.R.S. operator so get on the channel and let's hear from you.

A Friendly G.R.S. Reminder

The maximum power authorized for use by a licensed station is:

(a) where determined on the basis of direct current input power. Five watts to the anode or collector circuit of the transmitter amplifier stage supplying radio frequency energy to the antenna; or
(b) where determined on the basis of radio frequency output power.

(i) twelve watts peak envelope power for transmitters producing suppressed carrier, reduced carrier, controlled carrier, or other types of single sideband emissions; or

(ii) four watts carrier power for transmitters producing other types of emissions as measured at the transmitters output terminals when terminated by an impedance matched load.

In other words, keep your linears hidden!

Roy Brohm at town hall

Councillor's political career spans 21 years

by Jim Badgley

If the rest of Dysart et al council was willing to do the job for nothing, it wouldn't have bothered Roy Brohm. Roy knows what it is like to serve on Municipal Council for next to nothing.

In his first year on council, Roy received \$60 and had to pay his own expenses. A councillor now gets \$2,400 and has his expenses paid.

Roy said things really weren't that much better when he did become Reeve back in the early 1950's. He got paid \$160 for that job but still had to pay his own expenses.

Roy has served on council for 21 years, beginning in 1951 when his career started with the added feature of heading the polls over seven other people.

During his 21 years on council, Roy has never missed a meeting.

Roy claims he ran for council because it was bred in him. His father served on Dysart Council back in the area of 1910 when the steel bridge was first built and the sidewalks were put in the village.

Roy's first involvement in municipal work came in 1941, when he took on the job of assessor. He said he couldn't figure out why the person who held the job before him had quit until he realized that the Canadian Land and Emigration Company lots were being divided. He pointed out that this was going on in nine townships of Dysart et al. Roy said that he had to hire help to clear up the problem, which couldn't have left much in the way of profit, out of the \$400 he was being paid a year.

Roy spent eight years working on assessments in Dysart et al, which many people would likely say was like an education for his years to come as an elected official of the municipality.

In 1951 Roy was first elected to council and kept the position through 1952 and 1953.

In 1954 Roy ran for Reeve and defeated the late Harold Black.

"I didn't intend to run for Reeve, but at the last meeting of 1953 Harold Black handed me the gavel," he said. Roy pointed out that he just can't take a challenge.

Prior commitments meant Roy's first stay as Reeve of Dysart would only last for one year. After his year as head of the municipality he sat out three years.

A call from Bob Bishop helped put Roy back into politics. Mr. Bishop suggested that Roy seek election and that is just what he did, getting acclaimed in 1957 and 1958 as Deputy Reeve.

In 1963 Roy became Reeve again, defeating Holly Sisson, the incumbent. Roy kept the municipalities post until 1974 when he stepped down to run for Deputy Reeve.

Roy pointed out that he was defeated by 16 votes in that election, which was the only time he was ever beaten at the polls. Lloyd Coneybeare was the winner in the three man race which also included Gerald Barry.

Roy tells the story of one fellow who was working against him in the election. He said that the person came up to him just before election day and said that he had changed his mind and would mark his X beside Brohm.

Roy said he told the fellow not to bother because

if he won the election by one vote he wouldn't want to think that it was this fellow's vote that did it for him.

The loss only meant two years out of municipal politics for Roy Brohm and he really didn't get that far away from it because in 1976 he was elected to serve on the 1977-78 council by acclamation.

Roy said he had to get back into politics because he hated being defeated rather than being able to quit on his own good time. "I don't know whether you would call that ego or damn foolishness," he said.

Roy pointed out that since he was first elected to council he has been a part of "everything that has happened in this community" and he wants to continue to be a part of it.

In his 21 years as an elected official, Roy Brohm has found that his biggest accomplishment came near the first of his career when the first tourist subdivision in Ontario was set out on Haliburton Lake. He said from there it went to Kennisiss. He pointed out that this move was the major step in turning Haliburton, the lumbering town, into Haliburton the tourist area.

Roy said that the transition from lumbering to tourism completely changed the community. He noted that during the old lumbering days of Dysart there were hundreds of transient workers in the area, and because of that, there were many boarding houses. "At that time just about all of the business transacted in town was done by barter," he said.

Before Haliburton could become a tourist area though, the tight hold the Canadian Land Company had on the area had to be lifted and by 1952 the way was clear.

Roy pointed out that the first meeting of the 1952 council saw the municipality buy a new fire truck, the first ever in Dysart. He noted that in the event of a fire, before that time, it was a matter of everyone running with pails.

The municipality also picked up its first ambulance during that year, a station wagon.

Dysart was always a fairly progressive community, according to Roy. He pointed out that the first telephone system in the county was instituted in Dysart during the times his father was serving on the council.

"I can remember my father going by horse and buggy selling shares at \$100," he said. Roy added that it wasn't a bad deal because when the Bell Telephone bought the system, the shares were valued at \$960. He pointed out that the \$100 shares could be purchased at \$12 a year for 10 years.

Roy said it was a big moment for him when Bell Telephone presented the municipality with a cheque for \$1 million for the municipal telephone system.

Not only did Dysart have the first telephones in the county, but the township also had the first electric lights, he added.

During Roy's 21 years in politics, and 71 years in life, he has seen many of the politicians in the area. Municipally, Roy said, he has enjoyed working with most of the politicians, but he will admit that

Bill Smiley

The spinoff racket

ONE of the great rackets these days is the television series "spinoff." When a TV producer has a popular show, and one of the secondary characters is even mildly amusing, first thing you know that character has a show of his or her own.

This proliferates until you have spinoffs of spinoffs. It's like taking a bottle of fine whiskey, doubling the quantity by adding an equal amount of water, and selling it at the same price per shot as the original.

Then you take this mouthwash and further dilute it by adding more water, and you go on selling this at the original price. It works fine and makes a lot of money until the consumer finally realizes he could get more bang out of a glass of buttermilk, and he starts drinking buttermilk, and you are left with a large supply of gargle on your hands.

Norman Lear was the first TV producer to realize that people like watching bigotry and bathroom jokes even more than they like watching violence. Thus was born *All in the Family*, one of the great money-makers of all time in TV land.

From this was spun off *Maude*. The bigotry became phoney liberalism and the bathroom jokes became bedroom jokes, but it was the same slick formula, and it worked.

It was only a step from the slick to the sick, and brother Lear came up with *Mary Hartman, Mary Hartman*, which, while not quite a spinoff, is of the genre. Its favorite refrain is "Oh, Gawd. Oh, my Gawd." Excellent fare for the morbid or diseased mind.

Another good original show, *The Mary Tyler Moore Show*, spun, or spawned *Phyllis* and *Rhoda*, each starring one of the most self-centred, unpleasant women a writer could dream up, and each laced with borderline bad taste.

There's nothing wrong with all this, I suppose, in a free enterprise system, and nobody forces you to watch the garbage.

But there is only so much that the stomach will take before it will spew. And there is only so much that the mind will take before you will experience an intellectual vomit, and switch to watching the wrestling matches, where at least nobody is trying to pretend it's anything but phoney.

However, perhaps I'm rushing my fences a bit. I'm a realist. If everybody else is getting into the spinoff business, maybe I should jump on the bandwagon. There's money in it, and besides, it might be one way of putting an end to it. My record is perfect.

Just after the war, I met an old buddy who'd become a broker. He was investing in gold stocks and hauling in the loot. Gave me a hot tip. I plunged, with some of the

back pay I'd built up while in prison camp. Met the guy six months later. He'd lost his home and his boat and was selling farm machinery. I owned 300 shares of muskeg in Northern Ontario.

After that I stayed away from the market until mutuals were the thing. They were showing tremendous growth and potential. Once bitten, I hesitated, but then dived in with my \$200 savings. It seems I arrived just after the mutuals had nibbled some of that biscuit Alice did so she could go through the rabbit hole, or whatever. They shrank almost overnight to \$85 worth.

Last November, in one last desperate effort to enjoy a luxurious old age, I bought two \$100 Canada Savings Bonds. Two weeks later there was an election in Quebec, and now we don't even know whether there'll always be a Canada.

In January of this year, I bought a second-hand Ford. A week later I read in the paper that the Ford Motor Company was making payments for extraordinary rust to owners of Fords in my vintage. Then I read the small print. The payments had ended on Dec. 30, 1976. My Ford has rust.

So, with a track record like that, maybe I can administer the kiss of death to the spinoff business. Thought I'd start by producing some spinoffs of my column.

There's no problem about talent. My family is loaded with writers. Both my son and daughter specialize in pathos. They can write letters so pathetic that you are weeping all over the page and writing a cheque at the same time.

My wife can knock out a grocery list as long as your arm without even stopping to suck the pen. And she is not only talented as a writer. She's an outstanding and outspoken critic, as well. She can rip up the punctuation and purpose, the style and sub-

stance of one of my columns with both hands tied behind her back. Which is the only way it is safe to read some of them to her.

And there'll be no difficulty about content. My daughter is expert on Women's Lib, music, and mooching.

My son is fluent in English, French, Spanish, the Indian dialect of the natives of Paraguay, and mooching.

And the old lady is an expert on everything, and admits it. She has been bottling up this veritable fountain of knowledge for decades, except during breakfast, before and after dinner, and all weekend. Giving her a column of her own would be like punching a 20-foot hole in Boulder Dam.

In two or three years, I might even get the grandboys into it. At the moment, they are busily stuffing their memory banks. As soon as they can write, you may expect some sizzling stuff: Five Years as a Misunderstood

Child; Daycare Centre Depression; the Insire Story on Sadistic Social Workers Who Make You Give Back a Toy You've Ripped Off From Some Other Kid.
If my column spinoffs

don't put an end to the spinoff nonsense in about 30 days, I'll eat every paper in which this one appears, with or without ketchup.

Letters

from page 4

Mr. Bill Scott, M.P.
Victoria-Haliburton
Parliament Buildings,
Ottawa, Ontario.

Dear Bill:

I have just heard two rumours that leave me shaken. They are:

- (1) Supposedly, after C.N. publishes its spring time table, about April 30, 1977, Lindsay will no longer be a divisional point; just run through, serviced by Toronto or Belleville.
- (2) Portions of the Haliburton Subdivisions are rumoured to be available to use for highway reconstruction and re-location.

As you know, Bill, I tried several years ago to stir the Lindsay Haliburton areas into some action re the return of trains to that area. Apparently everyone is quite content to do without rail service. If that is so, I would suggest that now is the time for some enterprising person to apply for the lawn chair concession to watch them pull up the tracks. I wonder just how they will feel when gasoline reaches \$1.50 or even double that, per gallon (remember when it was .39c). At any price it could be so restricted that only essential usage would be permitted; example, farmers would have to get a quota of energy resources to continued production of food supplies. I, for one, would not complain about that; but I sure as hell will complain if anyone starts pulling up the rails in that area.

I suppose Lang is so busy riding around in his 707 at our expense, that he couldn't care less if we ever have trains. I would suggest that you take this up with "Joe Who", and Jack Horner, and let's get this going; or at least have it in the mill for after the election!!!

On point (2), Lindsay, as I understand it, will have no crews; they will be called to service that area, (Lindsay, Haliburton, Belleville) by crews from Toronto or Belleville. Just one more example of the "don't care" apathy from that whole area. How would you like to have worked for C.N. almost to retirement, as I am sure several of the crews have, then be forced to move either to Toronto or Belleville, for a few years. Frequently, Canada takes a "Me too" approach and follows the actions of the U.S.A. Why then doesn't the Department of Transport come up with a programme similar to Amtrak, where there is considerable effort being made to provide and improve passenger service across that country? Read the article in Trains Magazine, March 1977 issue, entitled "Dear Santa Clause - 2."

Copies of this letter are going to the following:

- Lindsay Daily Post, in hopes the people there will take some action to save the rails and eventually get trains back.

- Haliburton Echo, same reasons.

- Hon. James Snow, requesting an answer to point 1; hopefully refuting the rumour.

- Hon. Otto Lang, whose anticipated answer will likely be to advise us to all travel by air or bus, as he suggested to the delegates at the National Rail Passenger Conference in Regina last fall, and repeated to the people in the Maritimes recently. Yes, Mr. Lang, I refer to a recent release from your bus, air plane oriented people. Hope you soon realize we don't all have access to your 707; all we can do is pay taxes.

- Hon. Joe Clark, because I read the news and watch the polls.

- Hon. Jack Horner, because I read the news and watch the polls.

Yours very truly,
A.H. (Art) Eyres

Dear Sir:

Gledhill Public School, located at 2 Gledhill Ave., in the east end of Toronto, is celebrating its 60th Anniversary this year.

Plans are underway for the week long celebration, which will culminate in an Open House on Saturday, March 14, 1977.

In order to make this event a success, we are trying to locate all former students and teachers and ask them to contact the school at the above address.

We feel that many of these people we are trying to find have moved out of the Toronto area, and it will be through your help that we will be able to locate them.

If you could find space in your weekly publication to make mention of this event, it would be greatly appreciated.

Thanking you in anticipation of your assistance, I remain,

Yours very truly,
Arthur B. Kelly,
Publicity Chairman.

Dear Sir:

'Heart Month' in Canada is now, over, and on behalf of the Canadian Heart Fund, Ontario Division, please accept our sincerest appreciation for your co-operation and assistance during our financial campaign in February.

Our objective this year was \$4,000,000 and although all returns are not in, we are quite hopeful that our objectives will be attained.

Without your willing co-operation in communicating our needs to your readers, the Canadian Heart Fund would not be able to express such an outlook.

Heart disease is everyone's problem - and again our thanks for helping us bring to the attention of the public, that - research should be everyone's responsibility.

With best wishes,
Yours very truly,
CANADIAN HEART FUND,
Ontario Division
Esther M. Richards,
Director of Public Relations.

4H club meeting planned

An organizational meeting to establish a 4H Club for Haliburton County will be held Wednesday, April 13, in the Minden municipal chambers, at 7:30 p.m. Carm Hamilton, district Food and Agriculture representative announced at

last Wednesday's meeting of the Haliburton County Livestock Producers' Association.

Mr. Hamilton noted that there have been 4H Clubs in the area in the past, and that he hopes one can be started again.

4H refers to head, heart, hands and health, four areas in which the Club hopes to help develop its young members intellectually, emotionally, socially and physically, Mr. Hamilton said.

The program is designed to provide children from the ages of 12 to 19 with opportunities of learning about animal and plant sciences, agricultural engineering, natural resources and farm management, and gives them a chance to develop other areas of interest as well under the guidance of volunteer workers.

The club is designed to

help rural children have fun, make friends and gain confidence in handling new areas and abilities.

50 general occurrences investigated

During the week of March 21 to 27 the staff of the Minden detachment of the Ontario Provincial Police investigated six motor vehicle collisions and 50 general occurrences.

There was one compassionate message delivered, two persons charged with snowmobile violations, one person charged with a Narcotic Act violation, eight persons charged with Liquor Licence Act violations, three persons charged with impaired driving and three break-ins investigated.

St. George's Choir is preparing Lenten drama

The members and friends of St. George's choir, under the direction of organist, Mr. Bill Gliddon, have treated our community, over the past several years, to 19 well-received performances of a pageant setting of "The Birth of Jesus".

This same group is presently preparing a Lenten drama in 4 scenes, entitled "The Other Wise Man" (from the beautiful and moving story by Henry Van Dyke). This drama will take the place this year of the traditional Christmas pageant.

The director and cast have put a lot of work into this production, and are hoping for a large and supporting audience. Please see the Coming Events section for further details.

Glamorgan Township Council

The Council of the Corporation of the Township of Glamorgan held its Regular March meeting on Wednesday, March 9th, 1977 commencing at 10:00 a.m. Present: Reeve, Robert Fotheringham, in the Chair; Councillors: Robert McCausland and Chesley Noseworthy. Absent: Deputy Reeve, Larry Hunter; Councillor Elgin MacDuff. Staff present: Elva V. Bates, Clerk; James Manley, Road Superintendent.

Gems of Truth

From Malachi to John The Baptist

Malachi is the last of the Old Testament prophets and his message is the transition link between the Old and New Testament. Divine silence of four hundred years followed the sweeping indictment of Israel and Judah as the prophet accuses them of idolatry, unfaithfulness and hypocrisy. Just before the burden of the Lord Jehovah for His people is spent in warnings given, and settles into those silent years, the message is pronounced concerning Messiah's Advent. But even that event was tinged with solemn warning, for Jesus was to come as the "ax is laid into the root of the trees." Math. 3:1-12.

The shut-up Heavens and absence of prophets did not mean that God was disinterested in the affairs of men. He continued to overrule the activities of the Gentile nations. It is thus that the Lord God raised up the Macabees to preserve

Israel from destruction. The history of nations operating during those four hundred years of silence comes to us by secular historians. They are however quite accurate and fit well into the picture of world affairs when that silence was again broken by the appearing of John the Baptist of New Testament days. Luke 1:5-25, 57-80., Math. 3:1-12.

Persian rule of the world nations was carried on for some one hundred years after Malachi spoke God's message to Israel who were under their yoke. It was during this time that Israel had a sense of freedom of worship and the scene of John 4:19,20 can be traced to the ritual temple worship in Samaria.

In 333 B.C. the third of the world's greatest empires took possession under the Grecian conqueror Alexander. It is interesting to note that the Septuagint translation of the Old Testament was made during these years - as Jewish families were estab-

lished in areas outside the old Hebrew domain. B.C. 286 is the date reported for this much used translation of

Heating with water and oil

by S. Armstrong Goff

This subject has nothing to do with solar heating but rather the combining of the elements of water with oil.

Some years ago I introduced into the carburetor of a 490 Chevrolet what was called a "vaporizer". Water vapour was drawn from a container of water into the fuel line. It certainly improved mileage and acceleration. The only problem was freezing in cold weather and sometimes condensation in the jets. For summer driving it was a boon. Many people have noticed that their car runs better on a damp, even misty day. The same principle was used by an elderly gentleman that I knew by the name of Ryerson. He was a heating expert and had devised a system of nozzles by which a fine heated spray of water was introduced at the point of burning in an ordinary oil furnace. I had heard about this invention since I was doing some legal work for him. After considerable persuasion, I was finally allowed to see a demonstration. The old gentleman was suspicious of everybody since he had been robbed of his ideas before. He conducted me down into the basement of the old Gurney Stove factory on King Street West, in Toronto. The furnace was enclosed by a wire cage secured with a heavy padlock. After unlocking the cage, he started the fire by merely pushing a button. There was a spurt of reddish flame which almost immediately changed to a clear blue flame; no soot, no smoke, no carbon. When I thought about it for a while I realized from my elementary knowledge of chemistry that it was quite feasible. He showed me records proving an increase in heating economy from 22 to 30 percent.

It has astonished me why this principle has not been utilized by modern engineers. He did have one problem. Since the water came from the city main eventually the small apertures in the nozzles plugged up with lime from the water main, but this seems like a minor problem.

Ryerson was about 80 years old when I knew him so I suppose he is long since gone. He also had many other excellent ideas on heating which have been proven in use. Maybe under the present crunch some of these ideas will re-appear, for they are still valid and even urgent.

Two community mental health programs recommended by the Haliburton, Kawartha and Pine Ridge District Health Council, last fall, will receive government grants totalling \$182,000.

The two programs are extensions of the psychiatry Day Therapy program provided by the Department of Psychiatry of the Peterborough Civic Hospital and will provide a comprehensive Day Therapy psychiatric service to the population of Victoria and Northumberland Counties.

One program will be based at the Ross Memorial Hospital in Lindsay, the other at the Cobourg District General Hospital and will utilize the co-ordinated services and facilities of the three hospitals involved.

The program proposals were submitted by the Department of Psychiatry of the Peterborough Civic Hospital in response to a request by the Ministry for the development of new approaches to the treatment of the psychiatrically ill which will result in an increase in the number of former hospital patients being treated in the community, rather than in institutions.

The Haliburton, Kawartha and Pine Ridge District Health Council reviewed the program proposals last fall and recommend their approval to the Ministry of Health.

yester-years.

Much could be said about those historical years of silence, but space does not allow. A passing glance at the civil power of Rome who achieved world domain with divided responsibility to rule given to a variety of men. Here is where Julius Caesar made Antipater procurator of Judea and further established his son Herod, governor of Galilee. After the murder of Caesar there was much disorder in Judea and Herod fled to Rome. In B.C. 40 he was appointed "king of the Jews". It is thus that we find him in N.T. records. Math. 2:1-16.

King Herod has sought to strengthen his jurisdiction by rebuilding the temple at Jerusalem and it was this temple that stood when Jesus set His feet in it. As the Roman yoke began to settle on Jewish necks, God was allowing men to set the stage for the appearing of the Lord Jesus the Son from Glory.

Paul tells us it was the "fullness of sin time" when Jesus came. Galatians 4:4. Jewish religion had deteriorated to new levels of materialism and hypocrisy.

The Temple had become a den of religious thieves. Gentile government had sunk to the filth and uncleanness in the Roman regime where "incest and sodomy" were common sins of the rulers and people alike. It is recorded that ninety percent of the citizens were the slaves of drink and immorality. What a picture of our present day after all these years of Grace! Rome perished under the judgment of God. The Heavens could no longer bear the sight of slighted, disregarded and offensive repudiation of God's Word of Grace.

The silence of those 400 years were broken by the sudden appearing of a man with a strong message for "repentance". What a man he was. Unafraid of public opinion or reaction he spent his few years in total submission to Him who had called him to enter the sordid scene on earth. Small wonder that the astonished hearers were drawn aside to hear such "Heavenly" music. There were still some in Israel who were patiently waiting for God to make good His promise of a "Redeeming Saviour".

Harold Black was the best Reeve in Dysart. "I always admired him and was ashamed to even run against him," Roy said.

He added that he wouldn't have run against him if it wasn't for the gavel incident.

Roy said he could name many good politicians who served municipally in Dysart, but among the best were Holly Sisson, Carl Hussey, and Bert Curry.

When asked if it would have made any difference to his political career if Harold Black hadn't challenged him, Roy said he doubted it because he has been interested since he was a young boy.

Roy said that even if Harold Black had beat him he definitely would have run again. "I am not a quitter."

"A few years back I would have said nobody in the world could beat me here," Roy said, pointing out that the Brohm family has a lot of respect in the community.

Now he points out that he could be bet on a head-on fight in Dysart.

When asked who could beat him, Roy didn't jump to give any answers but admitted that the present Reeve, Murray Fearney, could likely do it.

"It would be a good race just in town though," he said.

Roy pointed out that things have changed a great deal politically in Dysart, in the past few years.

"Today it is a new group of people and probably 25 per cent of them don't even know me," he said.

Politicians are different now as well, Roy pointed out. He said they are far more diplomatic now and avoid making definite decisions. "I either make a decision one way or the other and this is not always

popular," he said.

Roy is amazed at the lack of knowledge many young people have in municipal government. He noted that many young people do not even know there is a municipal council.

He feels that a municipal government course should be run in our public school system to educate the people into the workings of the government.

What does Roy Brohm see for the future? He sees Haliburton County going on as a tourist area and being exceptionally prosperous.

What he would like to see is some sort of government institution which would create a number of jobs. He pointed out that we already are assured of having our summers saturated with tourists but the area needs year round employees.

This present term on municipal council isn't a final fling by a longtime politician, it is just part of his career which Roy said will continue as long as he is healthy enough to make a contribution to the municipality.

In his many years in municipal politics, Roy has seen many changes, he has seen Haliburton County and Dysart et al progress in many ways, but there is one personal achievement that Roy seems to put ahead of almost everything else. In 1967, Canada's Centennial Year, Roy was elected Warden of the Provisional County of Haliburton.

Roy admitted that it was his biggest personal moment. "I received the Centennial Medal and had the opportunity to speak at a lot of gatherings," he said. "It was a busy year, but I enjoyed every minute of it."

LISTINGS INVITED

Organizational changes
designed to decentralize
some of the academic and
administrative functions at
Sir Sandford Fleming Col-
lege have been announced
by College President David
B. Sutherland.

Mr. Sutherland said the
move to co-ordinate services
on a campus basis is similar
to steps taken by several
other mid-sized Ontario col-
leges.

"By bringing day-to-day
decision-making closer to
the teacher learner level, we
will be able to meet more
efficiently the academic and
administrative demands of
the over 12,000 full and
part-time students served
annually by Sir Sandford,"
he said.

A major result of the
reorganization is the ap-
pointment of former Re-
training Division Chairman
David A. Gray and Com-
munity Liaison Director Stu-
art A. (Bud) Robertson to
the newly-created positions
of principals of the McDon-
nell Street and Brealey Drive
campuses, respectively, in
Peterborough.

Mr. Gray will be respon-
sible for co-ordinating and
developing all aspects of
adult education in the Col-
lege region, including pro-
grams conducted on behalf
of Canada Manpower, ap-
prenticeship, industrial and
management development
training, and continuing ed-
ucation credit and general
interest courses.

Mr. Robertson will co-
ordinate the operations of
the post-secondary business,
general and applied arts,
health science, and technical
divisions.

The College appointed
Glenn N. Crombie principal
of its Lindsay campus in
1974. His duties will be
enlarged to match the new
Peterborough positions, in-

cluding added responsibility
for student-related services
and other campus operations
for the natural resources
division.

Mr. Sutherland said the
reorganization has also
prompted new titles for
three other administrators,
to reflect more accurately
their changing roles.

All principals will report
in both administrative and
academic matters to Dorothy
Rowles, whose position has
been changed from academ-
ic vice-president to vice-
president.

Former comptroller and
treasurer George B. Lamont
has been named vice-presi-
dent, finance. And Douglas
S. Kirk, formerly dean of
student services, will be
responsible for community

liaison as part of his new
duties as assistant to the
president.

Don't rub snow on frost-bite

Never rub snow on frost-
bite St. John Ambulance
teaches. Warm the area
with your hands or put
hands under the armpits
inside your jacket.

To avoid frostbite or injury
proper protective clothing
and equipment is a necessity
for winter sports enthusi-
asts, St. John Ambulance
advises.

MUNICIPALITY OF DYSART ET AL

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE
MATTER OF A PROPOSED BY-LAW OF THE MUNICIPALITY OF
DYSART ET AL TO CLOSE THAT PORTION OF THE ORIGINAL
ALLOWANCE FOR ROAD BETWEEN LOTS 5 & 6, CON. II, IN
THE TOWNSHIP OF DYSART.

NOTICE IS HEREBY GIVEN* pursuant to Chap. 284 Sec. 443 of the
Municipal Act, that the Township Council of the Municipality of
Dysart et al proposes to consider and if deemed advisable, to pass at
its regular meeting to be held at the Council Chambers, Haliburton,
Ontario on Monday, April 11th, 1977, a By-Law to Close, Stop Up
and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and
premises, situate, lying and being in the Township of Dysart, in the
Provisional County of Haliburton, being composed of the Northerly
400 feet of the original allowance for road between Lots 5 and 6,
Concession II, in the said township, and which said parcel or tract of
land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived
from the Westerly limit of Lot 6, Concession III, having a bearing of
North 21 degrees, 55 minutes West and referred to the meridian
through the South East corner of Lot 15, Concession VIII, Township
of Dysart.

COMMENCING at the North Westerly angle of Lot 6, Concession II;

THENCE South 21 degrees 55 minutes East, 400.0 feet;

THENCE South 69 degrees 04 minutes 30 seconds West, 66.01 feet;

THENCE North 21 degrees 55 minutes West, 400.0 feet;

THENCE North 69 degrees 00 minutes 45 seconds East, 33.0 feet;

THENCE North 69 degrees 08 minutes 30 seconds East, 33.01 feet
to the point of commencement;

WHICH said parcel or tract of land may be further illustrated,
shown in heavy outline on a plan drawn by H.C. Bishop, O.L.S.,
dated February 14, 1977, and hereunto attached.

AND TAKE FURTHER NOTICE that before passing the said
By-Law at its meeting to be held at the time and place above
mentioned the Township Council of the Municipality of Dysart et al
shall then and there hear in person, or by his Counsel, Solicitor or
Agent, any person who claims that his land will be affected by the
said By-Law and who applies to be heard.

DATED at Haliburton, this 14th day of March 1977.

IN MEMORIAM

NESBITT: In fond and loving memories of our Parents, Mr. & Mrs. Sam Nesbitt. Mother March 1968, Father April, 1970.

Our hearts till ache in sadness
And secret tears still flow
And what is meant to ease you
No one will ever know
When the day is sad and lonely,
And everything goes wrong,
I seem to hear Mother whisper
"Cheer up and carry on".
Each time we see your picture
You both seem to smile and say
Don't cry I'm only sleeping
We'll meet again some day.
For Brother Robert Cecil died May 1968
God will link the golden chain
When we all meet again.

Always loved and remembered by Daughter & Sister
Blanche and Family.

MUNICIPALITY OF DYSART ET AL

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE MUNICIPALITY OF DYSART ET AL TO CLOSE THAT PORTION OF PART OF SPRUCE AVENUE BETWEEN BLOCKS VIII AND IX, REGISTERED PLAN NUMBER 1 AND PART OF LAKEVIEW STREET BETWEEN BLOCKS IV AND VIII, REGISTERED PLAN NUMBER 1, IN THE TOWNSHIP OF DYSART.

NOTICE IS HEREBY GIVEN, pursuant to Chap. 284 Sec. 443 of the Municipal Act, that the Township Council of the Municipality of Dysart et al proposes to consider and if deemed advisable, to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario on Monday, April 11th, 1977, a By-Law to Close, Stop Up and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Township of Dysart, in the Provisional County of Haliburton, and being composed of Part of Spruce Avenue between Blocks VIII and IX, Registered Plan Number 1, and Part of Lakeview Street between Blocks IV and VIII, Registered Plan Number 1, in the said Township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived from the Northerly limit of Block IV, Registered Plan Number 1 having a bearing of North 68 degrees 50 minutes 30 seconds East.

COMMENCING at the South Easterly angle of Lot 5, Block VIII, Registered Plan Number 1, being the North Westerly corner of the intersection of Lakeview Street with Spruce Avenue.

THENCE South 68 degrees 50 minutes 30 seconds West, 23.14 feet to an iron bar;

THENCE South 21 degrees 19 minutes 30 seconds East, 10.37 feet to an iron bar;

THENCE North 68 degrees 50 minutes 30 seconds East, 41.76 feet to an iron bar;

THENCE North 24 degrees 39 minutes West, 73.41 feet to an iron bar;

THENCE South 68 degrees 50 minutes 30 seconds West, 14.36 feet to an iron bar;

THENCE South 21 degrees 19 minutes 30 seconds East, 62.9 feet to the Point of Commencement.

WHICH said parcel or tract of land may be further illustrated as that portion of the aforesaid streets shown in heavy outline on a Plan of Survey by H.C. Bishop, O.L.S., dated January 7th, 1976 and hereunto attached.

AND TAKE FURTHER NOTICE that before passing the said By-Law at its meeting to be held at the time and place above mentioned the Township Council of the Municipality of Dysart et al shall then and there hear in person, or by his Counsel or Solicitor or Agent, any person who claims that his land will be affected by the said By-Law and who applies to be heard.

DATED at HALIBURTON, this 14th day of March, 1977

HOME OF THE WEEK

PLAN NO. 74-1866
WIDTH - 36 ft.

The "Home of the Week" features an exterior finish of vertical siding, cedar or aluminum, but could easily be replaced with brick veneer and the heavy cedar shakes on the roof could easily be changed to asphalt, which proves just as interesting and effective.

Wall to wall closet, door to the side patio, and plenty of room, 14' x 9' x 11'-6", make the master bedroom a convenient and comfortable room, also gives Mom and Dad the opportunity to have complete privacy away from the children.

On the second floor the double door bathroom creates an ensuite bedroom with the entry through the large closet-dressing room. Both bedrooms have the luxury of sliding doors to separate balconies and high vaulted ceilings with full length windows, again creating the feeling of spaciousness.

Plan for design No. 74-1866 may be obtained at a cost of \$70. for the first set and \$9 for each additional set, plus \$3.50 for postage and handling. B.C. residents please include 7 per cent sales tax.

Send for the current edition of Select Home Designs Series No. 33 featuring imaginative decorating and home improvement ideas plus more than 300 quality home plans of every type. Available for \$2.25 (\$1.75 plus 50 cents postage and handling). To order these items please send cheque or money order payable to the Home of the Week. Address to: Home of the Week, c/o The Haliburton County Echo, 382 West Broadway, Vancouver, B.C. V5Y 1R2.

Stran warehouses stack up very well.

If you measure your warehouse by maximum space at minimal cost, Stran buildings stack up very well, indeed. If you measure future maintenance costs, they stack up even better. Our speedy construction will let you start stacking up sooner, too. Give us a call today.
